FOREWORD

Praise be to Allah SWT for all His mercy and grace because the Quality Assurance Unit (UPM) can complete the preparation of this Monitoring and Evaluation Report. The preparation of this report is inseparable from the assistance of various parties, especially the Quality Assurance Group (GPM) in the Faculty of Teacher Training and Education, Lambung Mangkurat University (FKIP ULM). Other support that is no less important is from the Dean and Vice Dean of FKIP ULM. Therefore, the drafting team would like to express their gratitude to all parties involved and support the process of preparing this report.

This report is prepared to control the teaching and learning process so that it can be carried out effectively and efficiently during one semester and measure the achievement of learning targets that have been implemented based on the plans that have been prepared during one semester. This is part of the quality assurance process so that the results of this monitoring and evaluation can be used as an evaluation material as one of the considerations in making decisions and making policies.

The implementation team and the compilers of this monitoring and evaluation report welcome all input, criticism and suggestions from various parties for the sake of the perfection of the preparation of this report. Finally, we hope that this report can be useful as it should be.

Banjarmasin, April 2021

Quality Assurance Unit

CHAPTER I

INTRODUCTION

1. Background.

Law of the Republic of Indonesia Number 12 of 2012 concerning Higher Education Article 53 explains that the quality of higher education is a systematic activity in an effort to improve the quality of higher education in a planned and sustainable manner. This is so that the community is able to get quality education. The quality assurance system in higher education must include an internal quality assurance system (SPMI) and an external quality assurance system (SMPE). The external quality assurance system is carried out through the accreditation process, while the internal quality assurance system (SPMI) is developed independently by higher education institutions based on quality standards that have been set by higher education institutions by referring to the established national standards. Each university is authorised autonomously to control and improve the implementation of sustainable higher education. Therefore, SPMI is made into several cycles including Planning (establishment of SPMI), Implementation, Evaluation, Control and Development (PPEPP). These cycles must be carried out by study programmes and universities in order to achieve the milestones of vision, mission, goals and strategies set.

The quality of graduates is an important thing that can determine the achievement of the vision and mission that has been set in higher education. Faculty of Teacher Training and Education, Lambung Mangkurat University (FKIP ULM). The vision of FKIP ULM is "To become a faculty that organises and produces educators and education personnel with character, excellence and competitiveness in the field of wetland environment". To produce graduates who are superior and competitive, it is necessary to pay attention to the quality of the learning process. Good learning quality is one of the main factors to produce quality graduates. Therefore, improving the quality of the learning process is very necessary. As an effort to improve quality standards in the learning process, with the aim of fulfilling and improving the quality of learning outcomes that ultimately produce superior and competitive human resources. To review the achievement of this quality, internal monitoring and evaluation or monevin is carried out.

Internal monitoring and evaluation is a form of self-evaluation that is reviewed periodically. The data obtained from internal monitoring and evaluation become a reference for conducting self-evaluation, establishing follow-up plans, and continuous improvement in order to achieve the set quality standards. One of the aspects monitored and evaluated is the learning process. Learning or lectures are academic activities carried out in accordance with the curriculum that has been planned by the study programme.

The learning process in study programmes within FKIP ULM is regularly monitored and evaluated. The aspects that are monitored and evaluated are the presence of lecturers in giving lectures, student attendance in attending lectures, the suitability of the material topics delivered by lecturers, student completeness based on course grades, and lecturer performance based on student satisfaction surveys.

2. Goals

Internal monitoring and evaluation carried out on learning activities in Study Programmes within FKIP ULM generally aims to determine the extent of the achievement of the learning process. Specifically, internal monitoring and evaluation has the following objectives:

a. Controlling the teaching and learning process so that it can be carried out effectively and efficiently during one semester.
b. Measuring the achievement of learning targets that have been implemented based on the plans that have been prepared for one semester.
c. Exploring information related to the management of learning and its results, as well as obtaining information materials for the continuation of the next learning process.

3. Benefits

The implementation of internal monitoring and evaluation of the learning process in Study Programmes within FKIP ULM is beneficial:

a. As a form of supervision of lecturers and students related to the learning process.
b. As an evaluation of the achievement of learning targets that have been implemented in accordance with the lecture plan made for learning planning

c. For information relating to the management of future learning.
d. As decision-making material based on the evaluation of learning that has been carried out.

4. Target

Internal monitoring and evaluation is carried out in the field of education and teaching in the odd semester of the 2020-2021 academic year. The targets are lecturers who teach the course and students who programme the course.

CHAPTER II

MONITORING AND EVALUATION RESULTS

1. History Education

a. Lecturer Attendance

Odd semester lectures for the 2020/2021 academic year are held from 28 September 2021 to 21 January 2021, the recovery is carried out online (in the network), using the *Learning Management system* (LMS), in the form of zoom meeting, google meet, classroom, e-learning portal simari, lecturer attendance data as follows:

Table 1.1 Lecturer Attendance in Giving Lectures

No.	Course Content	Name of Lecturer/Teaching Team	(%)

Average			**100%**

Based on the table above, it is known that the presence of lecturers in giving lectures has reached the target of 100%. This data is based on the implementation of lectures both synchronously / directly through online face-to-face (zoom meeting, google meet, and LINE video) and asynchronously / indirectly through the provision of e-learning discussion materials, LINE, whatsapp, and Edmodo. The determination of attendance in lectures indirectly or asynchronously is seen from the completeness of the material made by the lecturer in accordance with the meeting plan on the e-learning platform and others. Thus, even though students do not access the platform (students are considered absent), the teaching lecturer is still considered present. This indicates that when lectures switch from offline to online, the activities become more flexible.

b. Student Attendance

Based on the academic guidelines of Lambung Mangkurat University, the tolerance for student absences is 80% of the total attendance of lecturers. Based on this provision, the History Education Study Programme identified (in the form of a percentage) student attendance during lectures in the odd semester of the 2020/2021 academic year. The following is the data presentation:

Table 1.2 Student Attendance in Lectures

No.	Course Content	Class	Number of students	Percentage
1	Introduction to Education	A2	30	96%
2	History of Politics and International Relations (K17)	A2	30	96%
3	Introduction to Anthropology (K13 & K17)	A1, A2	4	100%

76	Historical Methodology and Historiography (K17)	A1	29	100%
77	Banjar History (River Culture)	A1	33	100%
78	Entrepreneurship	A1	32	100%
79	Entrepreneurship	A2	45	100%
Average				**95%**

Through the table above, it is known that the overall average percentage of student attendance has met the minimum target (above 80%). Even so, when viewed from the course unit, there are several courses whose attendance percentage of students is less than 80%, such as Thesis Proposal Seminar (Curriculum 2013), History Learning Curriculum Review (Curriculum 2013), and History Learning Evaluation (Curriculum 2013). Furthermore, the presentation of student attendance is more than 80% but less than 95% in the courses of Maritime History, Social Studies Learning (Curriculum 2013), History Textbook Review (Curriculum 2013), History of the Beginning of Independence Until the Old Order (Curriculum 2013), History Learning Media, History Methodology and Historiography (Curriculum 2013), Political History and International Relations (Curriculum 2013), Inclusive Education (Curriculum 2013), and Global Perspectives (Curriculum 2013).

c. Student Learning Completeness

Student learning completeness is based on assessment indicators received by students. The assessment is carried out based on the assessment of individual and group assignments (30%), Midterm Examination (30%), and Final Semester Examination (40%). The following is a description of student learning completeness with assessment indicators:

Table 1.3 Student learning completeness

Course Content	Class	Number of students	Percentage of Completion									
			A	A-	B+	B	B-	C+	C	D+	D	E
Introduction to Education	A2	30	20%	20%	7%	50%	0%	0%	0%	0%	0%	3%

Based on the table, it is known that there are several lecturers who give full marks (100%) in certain criteria. In the History of Banjar (River Culture) classes A1 and A2 (70 people), History of River Shipping classes A1 and A2 (69 people), Prehistory of the Archipelago classes A1 and A2 (60 people), Indonesian Language class A1 (30 people), Indonesian History from the Beginning of Independence to the Old Order class A1 (31 people), and History and Study of Islamic Thought class A1 (25 people) all students were given a grade of A. Whereas in the Introduction to History class A1 and A2 (60 people) and Cultural History class A1 and A2 (66 people) students were given a grade of C+. Giving grades

This kind of distribution is considered inappropriate considering that each student has different characteristics that affect the completion of learning. In addition, grading is also based on the percentage of student attendance and course assignments that need to be fulfilled.

d. Achievement of lecture material

The achievement of lecture material is considered based on the suitability of the material with the Semester Learning Plan (RPS) of the course. The following is a description of the data on the achievement of lecture material:

Table 1.4 Achievement of lecture material

No.	Course Content	SMT	Planned Topics	Topic Realised	Percentage
1	Introduction to Education	I	8	6	75%
2	History of Politics and International Relations (K17)	V	10	9	90%

78	Entrepreneurship	VII	8	7	88%
79	Entrepreneurship	VII	8	6	75%

Based on the table above, it is found that the percentage of planned topic conformity with the realisation of several courses is below 75%. The distribution of these courses includes Seminar Proposal Thesis intensive class (17%), Indonesian Socio-Economic History A1 class (63%), Curriculum Review of History Learning intensive class (33%), History and Islamic Thought Studies A1 class (57%), Evaluation of History Learning intensive class (57%), History Textbook Review intensive class (60%), Political History and International Relations intensive class (43%), Inclusive Education intensive class (50%), Research Statistics A1 class (67%).

e. Course Lecturer Performance Evaluation

Evaluation of lecturer performance in learning is based on filling out questionnaires by students related to satisfaction in teaching. Evaluation of lecturer performance in learning covers 3 (three) aspects: lecturer attendance, delivery of lecture material, and assessment. Based on these three aspects, 15 statement items were formulated. The following are the results of the evaluation of lecturer performance in learning:

Table 1.5 Performance Evaluation of Learning Lecturers

23	Nor Ainah, S.Th.I., M.Pd.	Religion	92,46%	EXCE LLENT

Based on the table above, it is known that the average lecturer who teaches courses in the History Education Study Programme in the odd semester of the 2020-2021 academic year is in the good and excellent performance category. The percentage of each lecturer is more than 70%. Even so, when viewed from each assessment aspect (15 aspects), the performance of lecturers still needs to be improved, especially regarding the use of learning support systems such as e-learning, Edmodo, LINE, etc. so that later learning becomes more flexible.

f. Recommendation

1. It is necessary to adjust the topics planned in the RPS with the topics that will be delivered during the lecture. If there is a change in topic, it is appropriate to revise the RPS.
2. The study programme needs to increase supervision of students regarding discipline in attending lectures. If there are students who lack discipline, they can be given a warning either verbally (calling the student concerned) or in writing through a warning letter.
3. The study programme should actively discuss with lecturers in charge of the course regarding giving grades to students. If there are still lecturers who give grades not based on aspects of student attendance and fulfilment of assignments, they should be given a warning with a maximum sanction of not being allowed to teach courses.
4. Improved lecturer performance regarding the flexibility of the learning process by attending various trainings on the use of flexible learning systems.

2. Pancasila and Citizenship Education Study Programme

a. Lecturer Attendance in Giving Lectures

Odd semester lectures for the 2020/2021 academic year are held from 28 September 2021 to 21 January 2021, the recovery is carried out online (online), using the *Learning Management system* (LMS), in the form of zoom meeting, google meet, classroom, e-learning portal simari, lecturer attendance data as follows:

Table 2.1 Lecturer Attendance in giving Lectures

36	PKN Seminar	A1 A2	Prof. Dr H. Wahyu, MS	16	100%

Based on the table above, the courses presented in the odd semester 2020/2021 are 40 courses. In the Civics Study Programme, lecturer attendance is divided into 3 (three) criteria, namely; very fulfilled (96-100%), fulfilled (90- 95%), and moderately fulfilled (80-89%).

b. Student Attendance in Lectures

Based on the academic guidelines of Lambung Mangkurat University, the tolerance for student absences is 80% of the total attendance of lecturers. Based on this provision, the Civic Education Study Programme identified (in the form of a percentage) student attendance during lectures in the odd semester of the 2020/2021 academic year. The following is the data presentation:

Table 2.2 Student Attendance in Lectures

Lecturer/Teaching Team	Course Name	Class	Percentage of Student Attendance (%)
Dr H. Harpani Matnuh, MH Muhammad Elmy, M.Pd	Constitutional Law	A1 A2	95,34 96,77

c. Student Learning Completeness

Student learning completeness is based on assessment indicators received by students. The assessment is carried out based on the assessment of individual and group assignments (30%), Midterm Examination (30%), and Final Semester Examination (40%). The following is a description of student learning completeness with assessment indicators:

Table 2.3 Student learning completeness

Lecturer/Teaching Team	Course Name	Class	Number of students who scored										
			A	A-	B+	B	B-	C+	C	C-	D+	D	E
Dr H. Harpani Matnuh, MH Muhammad Elmy, M.Pd	Constitutional Law	A1 A2	27	15	8	8	12	6					5

Based on the table above, the results of the achievement of material in accordance with the RPS for all courses reached 100%. Nevertheless, the Quality Assurance Group of the Civics Education Study Program continues to monitor the update of lecture materials. This matter is intended so that the material provided to students is in accordance with the needs.

e. Course Lecturer Performance Evaluation

Evaluation of lecturer performance in learning is based on filling out questionnaires by students related to satisfaction in teaching. Evaluation of lecturer performance in learning covers 3 (three) aspects: lecturer attendance, delivery of lecture material, and assessment. Based on these three aspects, 15 statement items were formulated. The following are the results of the evaluation of lecturer performance in learning:

Table 2.5 Evaluation of Lecturer Performance in learning

Based on the table and diagram above, the questionnaire results are divided into 3 (three) classifications, namely: Highly satisfactory (91-95%), satisfactory (86-90%), and fair (80-85%). From the data above, it can be seen that only 2 classes received a score of 2 moderate,

9 classes scored satisfactory and 25 classes scored highly satisfactory. This can be seen in the following graph:

f. Recommendation

1. For lecturers, to improve the quality of online learning can be done by increasing the variety, media and methods to make it better.
2. For Students Increase participation in online learning courses.

3. Economics Education Study Programme

a. Lecturer Attendance in Giving Lectures

Lecturer attendance during learning is assessed based on data in the learning journal for each course. In accordance with the learning guidelines of the Economics Study Program, the target attendance of lecturers for each Economics Study Program course at the Faculty of Teacher Training and Education, Lambung Mangkurat University for one semester is 14 face-to-face meetings. The number of meetings listed in the table does not include UTS and UAS. The following is an evaluation of Lecturer attendance during learning. The following table 3.1 results of the evaluation of lecturer attendance.

Table 3.1 Evaluation of Lecturer Attendance in Giving Lectures

36	Banks and Financial Institution s	A1,A2	Mahmudah Hasanah, M.Pd	15	94%
Average					92%

Based on table 3.1 above, the average attendance of lecturers in the Economics Study Programme at the Faculty of Teacher Training and Education, Lambung Mangkurat University has been

fulfilled the minimum requirement for the number of face-to-face learning sessions for one semester, which is 14 face-to-face sessions with an average attendance of 92%.

b. Student Attendance in Lectures

Student attendance can be evaluated based on student attendance in each course. Students who are allowed to take the final semester exam are students who attend learning activities for >75% attendance. The following is a recapitulation of student attendance during learning.

Table 3.2 Student Attendance in Lectures

No.	Lecturer/Teaching Team	Course Name	Class	Percentage

c. Student Learning Completeness

Monitoring student learning completeness is seen from the number of students who complete learning during one semester. Students are assessed through knowledge, attitudes and skills according to the characteristics of the course. The assessment given

by lecturers to students is carried out objectively in accordance with the ability of students to understand and analyse the material in the courses in the program. The following table 3.3.

Table 3.3 Student learning completeness

Lecturer/Teaching Team	Course Name	Class	Number of students who scored

d. Achievement of lecture material

To evaluate the extent to which the achievement of course material can be seen based on face-to-face learning with the syllabus of each course. Basically, the material achievement of the Economics Study Programme of the Faculty of Teacher Training and Education, Lambung Mangkurat University is good. Students have received material / competencies according to their respective courses. The results of material achievement during learning can be seen in Table 3.4 as follows:

Table 3.4 Achievement of lecture material

Lecturer/Teaching Team	Course Name	Class	Percentage of Achievement as per RPS			
			SMT 1	SMT 3	SMT 5	SMT 7
Drs Mahlan Asmar, M.Pd	Introduction to Education	A1	93%			
H. Maulana Rizky, M.Acc / Abdurrahim Alimin, S.Pd	Accounting Computers	A1		77%		
Prof. Dr Rizali Hadi, M.M / Syaripudin Bahar, S.Pd, M.AB	Introduction to Economics	A1	100%

e. Evaluation of Lecturer Performance in Learning

To evaluate the performance of lecturers in learning in each course, it can be seen from the questionnaire of each student on the SIMARI account. The evaluation of the performance of lecturers in the Economics Study Programme of the Faculty of Teacher Training and Education, Lambung Mangkurat University is generally good because student assessments show this. The statements used are statements that have been prepared by the University, so that each statement asked by all lecturers is the same as one another. The scale used is a Likert scale (1-5).

The aspects that are assessed are as follows:

1. Lecturer attendance is always on schedule
2. Course material in accordance with syllabi
3. Course resources are available in the Reading Room
4. Lecturer provides supporting references
5. The lecture material is easy to understand

6. Lecturer's mastery of course material
7. Got a lot of new material/something
8. Lecturer provides exercises and discussion of the questions
9. Lecturer very helpful in learning (giving opportunities questions, consultation, discussion, etc.)
10. Questions/quizzes/tests in accordance with the lecture material
11. Questions/quizzes/tests are not too difficult/medium
12. Lecturers are transparent in giving final grades
13. Lecturers utilise ULM e-learning media facilities
14. Lecturers actively conduct forum discussions and hold quizzes on e-learning
15. Lecturers share learning materials that are distributed through e-learning

The results of the evaluation of lecturer performance in teaching can be seen in table 3.5.

Table 3.5 Evaluation of Lecturer Performance in Learning

Lecturer/Teaching Team	Total Assessment					Likert Scale (%)
	Strongly Disagree	Disagree	Moderately Agree	Agree	Strongly Agree	
Muhammad Rahmattulah	56	252	890	2488	2989	84,28
Ananda Setiawan	17%	11	73	540	1054	90,71
Dwi Atmono	255	159	514	1646	2676	84.11
Suratno	44	56	208	687	1585	88.78
Rizali Hadi	26%	24	163	354	1218	90,41
Supriyanto	63%	32	367	1292	2176	87,92
Mahmudah Hasanah	18%	67	268	786	2176	90,38
Maulana Rizky	298%	333	1159	1474	1221	73,32
Monry, F.N. G. R	23%	30	166	914	2107	91,19

f. Recommendation

1. For Lecturers
   a) Lecturers maintain the consistency of the quality of learning well, so that learning in the Economic Education study programme at the Faculty of Teacher Training and Education, Lambung Mangkurat University can be maintained.
   b) Lecturers regularly record student attendance during lectures.
2. For Students
   a) Students maintain lecture attendance to fulfil the minimum number of lecture meetings.
   b) Students filled out the questionnaire according to their perceived circumstances, so that

4. Geography Education Study Programme

a. Lecturer Attendance in Giving Lectures

Lecturer attendance during lectures is assessed based on data available in the lecture attendance in each course. Lectures for the Odd Semester T.A 2020/2021 are held online, however, according to the academic guidebook for the Geography Education Study Program, FKIP ULM, the lecturer attendance target for each course for one semester is 14 - 16 face-to-face meetings (TM). Table 4.1 below is the data from the recapitulation of lecturer attendance on the simari.ulm.ac.id portal.

Source: Simari.ulm.ac.id.

Based on the data in table 4.1, the Geography Education Study Programme presents 41 courses in the odd semester 2020/2021. The courses are taught in 2 (two) classes, A1 and A2. The teaching team is the same in both classes. The Geography Education Study Program categorises lecturer attendance into 2 (two) criteria, namely fulfilled (16 meetings including exams) and unfulfilled (>14 meetings including exams).

Based on the data in table 4.1, it can be seen that 41 (forty-one) courses, the number of lecturers' attendance are all in the fulfilled category. Each course was attended by a team of lecturers for 16 meetings.

The Geography Education Study Programme monitors lectures through the simari.ulm.ac.id portal, if it is found that the number of lectures is less than 16 meetings, the study programme coordinator contacts the lecturer concerned to increase the number of lecture meetings.

b. Student Attendance in Lectures

Student attendance is evaluated based on student attendance in each course. In accordance with the academic guidebook, students who are allowed to take the Final Semester Examination (UAS) are students who attend lecture activities for > 90% attendance. If student attendance is only around 80% - 85%, students are still allowed to take the UAS provided they get additional assignments. If the percentage of student attendance is < 80%, then the student is not allowed to take the UAS. Table 4.2 below

is the data from the recapitulation of student attendance on the simari.ulm.ac.id portal.

Table 4.2 Student Attendance in Lectures

Based on the data in table 4.2, it can be seen that the attendance of Geography Education Study Programme students in 41 courses in the odd semester 2020/2021. The student attendance is presented in 2 (two) classes, A1 and A2. The Geography Education Study Program categorises student attendance into 2 (two) criteria, namely fulfilled (16 meetings including exams) and unfulfilled (>13 meetings including exams).

The Geography Education Study Programme monitors lectures through the simari.ulm.ac.id portal. During monitoring, if it is found that the number of student attendance is less than 13 meetings, the study programme coordinator contacts the lecturer concerned so that he can provide information about the student concerned. Analysis of the findings is presented in table 2.6, as follows.

c. Student Learning Completeness

Student learning completeness is evaluated based on the achievement of student final grades for each course. Determination of students' final grades is based on the sum of the percentages of three components, namely 30% from assignments, 30% from UTS, and 40% from UAS. Table 4.3 below is the data from the recapitulation of student learning completeness on the simari.ulm.ac.id portal.

Table 4.3 Student learning completeness

Based on the data in table 4.3, it can be seen that the learning completeness of Geography Education Study Programme students in 41 courses in the odd semester 2020/2021. The student learning completeness is presented in 2 (two) classes, A1 and A2. Students of the Geography Education Study Programme obtained graduation with varying grades, from the A to C range. The range of grades can be categorised based on the range of grades A to E for all courses.

d. Achievement of lecture material

Evaluation of the achievement of course material is seen based on face-to-face lectures with the syllabus of each course. In general, in the Geography Education Study Programme of FKIP ULM, the achievement of course material is good. Students have received material / competencies in accordance with their respective courses. If there are obstacles such as the lack of teaching meetings for certain courses by lecturers, but these obstacles can be overcome by replacing / scheduling at other meetings by the lecturer concerned. Table 4.4 below is the data from the recapitulation of the achievement of lecture material on the simari.ulm.ac.id portal.

Table 4.4 Achievement of lecture material

Based on the data in table 4.4, it can be seen that the achievement of lecture material for students of the Geography Education Study Programme in 41 courses in the odd semester 2020/2021. The achievement of student lecture material is presented in 2 (two) classes, A1 and A2. The Geography Education Study Program categorises the achievement of lecture material into 2 (two) criteria, namely fulfilled (100%-90% of the Course CPMK) and not fulfilled (>80% of the Course CPMK).

e. Evaluation of Lecturer Performance in Learning

The results of the evaluation of the performance of course lecturers came from a questionnaire filled out by students of the FKIP ULM Geography Education Study Program through the SIMARI ULM Portal in the 2020/2021 Spring Semester. Based on data from the SIMARI ULM Portal, the questionnaire consists of 15 statement items with an assessment range ranging from Strongly Disagree, Disagree, Moderately Agree, Agree, and Strongly Agree. The statement items are as follows:

a. Lecturer attendance as scheduled
b. Course material in accordance with the syllabus
c. Course resources are available in the Reading Room
d. Lecturer provides supporting references
e. The lecture material is easy to understand

f. Lecturer mastery of lecture material
g. Got a lot of new material/something
h. Lecturer provides exercises and discussion of the questions
i. Lecturers are very helpful in learning (providing opportunities for questions, consultations, discussions, etc.)
j. Questions/quizzes/tests in accordance with the lecture material

k. Questions/quizzes/tests are not too difficult/medium

l. Lecturers are transparent in giving final grades

m. Lecturers utilise ULM E-Learning media facilities

n. Lecturers actively conduct forums and hold quizzes on E-Learning

o. Lecturers share learning materials that are distributed through E-Learning.

Table 4.5 below is the data from the recapitulation of lecturer performance evaluation in learning on the simari.ulm.ac.id portal.

Source: Simari.ulm.ac.id.

Based on the data in table 4.6, it can be seen that the evaluation of lecturer performance in learning for the Geography Education Study Programme in 41 courses in the odd semester 2020/2021. The evaluation of lecturer performance in learning is presented in

2 (two) classes, A1 and A2. The Geography Education Study Program categorises the achievement of lecture material into 3 (three) criteria, namely good (100%-85%), sufficient (84%-75%), and deficient (>75%).

The Geography Education Study Programme monitors lectures through the simari.ulm.ac.id portal, if a lecturer's performance evaluation is found to be lacking, the study programme coordinator contacts the lecturer concerned to improve the

quality of learning.

f. Recommendation

1. For lecturers
   a) Lecturers should be able to fulfil the number of meetings according to the specified schedule and fulfil the lecture contract, so that lectures can run orderly and smoothly according to the planning in the syllabus.
   b) Learning uses creative methods so that students are more motivated and easy to understand the material presented.
2. For students

   It is hoped that the cooperation and sincerity of students to actively participate in filling out the lecturer performance questionnaire, so that the monitoring and evaluation process can run smoothly.

5. Sociology Education

a. Lecturer Attendance in Giving Lectures

Lectures for the odd semester of the 2020/2021 academic year will be held from 28 September 2020 to 21 January 2021. Overall, lectures are conducted using an online mechanism (in the network). The Learning Management System (LMS) is used, namely zoom, google meet, and google classroom, as well as the forum feature in e-learning (portal simari.ulm.ac.id). Based on the data obtained, the presence of lecturers in giving courses is described as follows:

Table 5.1 Lecturer Attendance in Giving Lectures

Based on the table above, the courses presented in the odd semester 2020/2021

are 39 courses. In the Sociology Education Study Programme, lecturer attendance is divided into 4 (four) criteria, namely; very fulfilled (91- 100%), fulfilled (81-90%), and moderately fulfilled (70-80%) and less fulfilled (60-69%).

Based on the table above there are 67 classes of 39 courses, it can be seen that 18 classes of 18 courses lecturers attend lectures between 15 to 16 meetings. In 45 classes out of 17 courses lecturers fulfil attendance of 14-15 meetings, in 2 classes in 2 courses lecturers only attend 12 meetings, and in 2 classes lecturers only attend 12 meetings.

2 classes in 2 courses lecturers only attended 10 to 11 meetings. Overall, teaching lecturers in the Sociology Education Study Programme completed lectures completely or fulfilled, namely 14 to 16 meetings. The presence of lecturers can be recorded directly through simari.ulm.ac.id. Although at the beginning of the lecture, there was confusion in the implementation of online lectures, but with the monitoring mechanism carried out by the Sociology Education Study Program via scheduled virtual meetings, the progress of lectures and lecturer attendance was always monitored.

b. Student Attendance in Lectures

The importance of student attendance in lectures is a prerequisite for eligibility to take the Final Semester Examination (UAS). Based on the academic guidelines of Lambung Mangkurat University, the tolerance for student absence is 80% of the total attendance of lecturers. Based on this provision, the Sociology Education Study Programme identified (in the form of a percentage) student attendance during lectures in the odd semester of the 2020/2021 academic year. The following is the data presentation:

Table 5.2 Student Attendance in Lectures

No.	Lecturer/Teaching Team	Course Name	Class	Percentage of Student Attendance (%)
1	Syahlan Mattiro, S.H., M.Si.	Introduction to Anthropology	A1	88%

37	Syahlan Mattiro, S.H., M.Si.	Sociology of Health*		95%
38	Resky P, M.Pd	Sociology of Corruption*		91%
39	Laila Azkia, S.Sos., M.Si.	Social Welfare*		94%

Based on the table above, from 67 classes in 39 courses, the number of student attendance is grouped into 2 (two) parts, namely: 15-16 full meetings are interpreted as very fulfilled. Attendance of 14-15 meetings is interpreted as fulfilled. The result of the recapitulation of student attendance is that 37 classes are very fulfilled and 30 classes are fulfilled. This data states that the enthusiasm of Sociology Education Study Programme students in attending lectures is very high, this is partly due to the fact that learning is carried out online and the average lecturer does not require students who attend to open videos, due to signal limitations and student kouta, so that the number of attendance attendance can be found, different from the attendance of zoom meetings or google meet.

Online learning during the last 2 semesters seems to have no problems with student attendance. Nevertheless, it is undeniable that there are still some students who do not attend lectures. However, the course lecturer still controls the lecture participants. Controlling is done by cross-checking student attendance gradually by coordinating with the operator, as well as the GPM of the Sociology Education Study Program. Therefore, the absence of students during lectures is not allowed to drag on.

c. Student Learning Completeness

Student learning completeness is based on assessment indicators received by students. The assessment is carried out based on the assessment of individual and group assignments (30%), Mid Semester Examination (30%), and Final Semester Examination (40%). As stated in the first point, there are 39 courses presented in 67 classes. There are no courses that contain a general assessment due to late input. The following is a description of student learning completions with assessment indicators:

Table 5.3 Student learning completeness

Lecturer/Teaching Team	Course Name	Class	Number of students who scored

Laila Azkia, S.Sos., M.Si.	Social Welfare*		24	8	2	2	1					1	

Based on the table above, it can be seen that the overall student learning completeness reached a percentage of 89% completed well and very well. The predicate of assessment above qualifications B to A percentage reached 89%, the rest B- to E. So it can be concluded that the majority of students

The Sociology Education Study Programme gets a semester grade point average (IP) above 3.00. In the aspect of student learning completeness, the Sociology Education Study Programme together with the Quality Assurance Cluster conducts scheduled monitoring to control the input of timely assessments. Student learning completeness indirectly affects student completion of studies on time (ranging from 7 to 9 semesters) in one period.

d. Achievement of lecture material

The achievement of lecture material is considered based on the suitability of the material with the Semester Learning Plan (RPS) of the course. The curriculum documents in the Sociology Education Study Programme are complete (both MKU, MKDK, MKPP, and MKKPP groups). The Quality Assurance Group conducts a review related to the suitability of the material based on the results of student evaluations of lecturer teaching on the simari.ulm.ac.id page questionnaire at the end of the semester. The following is a description of the data on the achievement of lecture material:

Table 5.4 Achievement of lecture material

Based on the table above, the results of the achievement of material in accordance with the RPS are classified based on 4 (four) categories, namely: very fulfilled (90-100%), fulfilled (80-89%), moderately fulfilled (70-89%), and less (60-69%). The data presentation above, outlines that the lecture material delivered by lecturers is in accordance with the RPS. However, the Sociology Education Study Programme Quality Assurance Group continues to monitor the update of lecture materials. This matter is intended so that the material provided to students is in accordance with the needs. The high student interest in lectures requires lecturers to provide

material that is not only in accordance with the RPS but also relevant to the times. Therefore, in addition to learning completeness based on assessment, the GPM of the Sociology Education Study Program urges lecturers to submit lecture material on e-learning on the simari.ulm.ac.id page.

e. Evaluation of Lecturer Performance in Learning

Evaluation of lecturer performance in learning is based on filling out questionnaires by students related to satisfaction in teaching. It is understood that the evaluation of lecturer performance in learning covers 3 (three) aspects: lecturer attendance, delivery of lecture material, and assessment. Based on these three aspects, several statement items were formulated. The evaluation of lecturer performance is aimed at assessing 18 lecturers in the Sociology Education Study Program for the odd semester of the 2020/2021 academic year The following are the results of the evaluation of lecturer performance in learning

Table 5.5 Evaluation of Lecturer Performance in Learning

Course Name	Lecturer/Teaching Team	Class	Total Assessment					Likert Scale (%)

Based on the data table above, the questionnaire results are divided into 4 (four) classifications, namely: Very satisfactory (63%), satisfactory (27%), and sufficient (7%) and less (3%). Performance in this case the performance of lecturers in learning in the Sociology Education Study Programme generally meets or is liked by students. This matter is interpreted that 90% of students are satisfied with the teaching performance of Sociology Education Study Program lecturers. Meanwhile, the Sociology Education Study Program in general always conducts internal monitoring by conducting study programme meetings related to improving learning performance. Through this forum, the Sociology Education Study Program is trained in e-learning management to socialise the completeness of online learning administration during the odd semester of the 2020/2021 academic year.

f. Recommendation

1. For Lecturers

As input related to improving the quality of learning, especially in online learning. So as to create effective and efficient online learning.

1) Each lecturer is obliged to substitute another day, if the lecture is not held as scheduled.
2) Each lecturer must fill in attendance on the simari
3) Continue to be maintained so that all courses can reach 100%
4) What has not been 100% realised is due to the delay in teaching time for the odd semester 2020/2021 and national holidays, so that the average number of lecturer attendance is only 13 and 14 meetings.
5) Some of the data provided is not accurate because it is online-based, students on average fill in attendance but do not attend zoom lectures or other media such as google class and e learning.
6) To make student attendance simari data accurate, it is expected that all lecturers always cross-check when giving lectures in the zoom

2. For Students

Increase participation in online learning courses. This is so that students realise that there is post-semester monitoring.

6. Social Studies Education Study Programme

a. Lecturer Attendance in Giving Lectures

Lectures for the odd semester of the 2020/2021 academic year will be held from 28 September 2020 to 21 January 2021. Overall, lectures are conducted using an online mechanism (in the network). The *Learning Management System* (LMS) is used, namely zoom, google meet, and google classroom, as well as the forum feature in e-learning (portal simari.ulm.ac.id). Based on the data obtained, the presence of lecturers in giving courses is described as follows:

Based on the table above, the courses presented in the odd semester 2020/2021 are 34 courses. In the Social Studies Education Study Programme, lecturer attendance is divided into 3 (three) criteria, namely; very fulfilled (96-100%), fulfilled (90-95%), and moderately fulfilled (80-89%).

b. Student Attendance in Lectures

The importance of student attendance in lectures is a prerequisite for eligibility to take the Final Semester Examination (UAS). Based on the academic guidelines of Lambung Mangkurat University, the tolerance for student absence is 80% of the total attendance of lecturers. Based on this provision, the Social Studies Education Study Programme identified (in the form of a percentage) student attendance during lectures in the odd semester of the 2020/2021 academic year. The following is the data presentation:

Table 6.2 Student Attendance in Lectures

Based on the table above, the number of student attendance is grouped into 3 (three) sections, namely: 16 full meetings are interpreted as very fulfilled. The attendance of 14-15 meetings is interpreted as fulfilled, and 13 meetings are moderately fulfilled. The results of the recapitulation of student attendance conveyed that 75% were very fulfilled, 23% were fulfilled, and 2% were moderately fulfilled. This data states that the enthusiasm of Social Studies Education Study Programme students in attending lectures is high.

Online learning during the last 2 semesters seems to have no problems. Nevertheless, it is undeniable that there are still some students who do not attend lectures. However, the course lecturers continue to control the lecture participants. Controlling is done by checking the attendance of students gradually by coordinating with the operator, as well as the GPM of the Social Studies Education Study Program.

c. Student Learning Completeness

Student learning completeness is based on assessment indicators received by students. The assessment is carried out based on the assessment of individual and group assignments (30%), Mid Semester Examination (30%), and Final Semester Examination (40%). As stated in the first point, 134 courses are presented. There are no courses that contain a general assessment due to late input. The following is a description of student learning completions with assessment indicators:

Table 6.3 Student learning completeness

d. Achievement of lecture material

The achievement of lecture material is considered based on the suitability of the material with the Semester Learning Plan (RPS) of the course. Curriculum documents in the Social Studies Education Study Programme are complete (both MKU, MKDK, MKPP, and MKKPP groups). The Quality Assurance Group conducts a review related to the suitability of the material based on the results of student evaluations of lecturer teaching on the simari.ulm.ac.id page questionnaire at the end of the semester. The following is a description of the data on the achievement of lecture material:

Table 6.4 Achievement of lecture material

Based on the table above, the results of the achievement of material in accordance with the RPS are classified based on 3 categories, namely: very fulfilled (96-100%), fulfilled (90-95%), and sufficient (85-89%). The data presentation above, outlines that the lecture material delivered by the lecturer is in accordance with the RPS. However, the Quality Assurance Group of Social Studies Education Study Program continues to monitor the update of lecture materials. This matter is intended so that the material provided to students is in accordance with the needs. The high interest of students in lectures requires lecturers to provide material that is not only in accordance with the RPS but also relevant to the times. Therefore, in addition

learning completeness based on assessment, GPM Social Studies Education Study Programme urges lecturers to submit lecture material in e-learning on the simari.ulm.ac.id page.

e. Evaluation of Lecturer Performance in Learning

Evaluation of lecturer performance in learning is based on filling out questionnaires by students related to satisfaction in teaching. It is understood that the evaluation of lecturer performance in learning covers 3 (three) aspects: lecturer attendance, delivery of lecture material, and assessment. Based on these three aspects, 15 statement items were formulated. The evaluation of lecturer performance is aimed at assessing 19 lecturers in the Social Studies Education Study Program in the odd semester of the 2020/2021 academic year The following are the results of the evaluation of lecturer performance in learning:

Table 6.5 Evaluation of Lecturer Performance in Learning

Lecturer/Teaching Team	Strongly Disagree	Disagree	Moderately Agree	Agree	Strongly Agree	Likert Scale (%)
Akhmad Munaya Rahman, M.Pd.	6	19	153	402	1490	92.38%
Dr Bambang Subiyakto, M.Hum.	25	41	313	1002	4259	93.44%
Dr Deasy Arisanty, M.Sc.	21	25	142	490	2097	93.28%
Dr H. Hamsi Mansur, M.Pd.	19	73	150	308	470	82.29%
Dr Herry Porda Nugroho Putro, M.Pd.	35	89	334	768	1504	86.50%
Dr Ismi Rajiani, MM.	23	36	195	485	2006	92.17%
Dr Sabhan, M.Pd.	21	12	54	116	502	90.24%
Dr Syaharuddin, MA.	48	54	345	1598	3700	90.80%
Dra. Hj Rochgiyanti, M.Si, M.Pd.	32	88	405	910	3065	90.61%
Drs. Heru Puji Winarso, M.Si., M.A.P.	2	26	55	145	477	90.33%
Heri Susanto, M.Pd.	60	33	278	848	1826	88.55%
Jumriani, M.Pd.	15	19	146	558	3357	95.28%
Mahmudah Hasanah, M.Pd.	18	11	281	821	3489	93.56%
Muhammad Adhitya Hidayat Putra, M.Pd.	16	20	134	571	2349	93.77%
Muhammad Ihsanul Arief, S.Th.I., M.Ag.	2	3	50	78	572	94.47%
Muhammad Rezky Noor Handy, M.Pd.	3	15	169	628	2200	93.21%
Noor Ainah, S.Th.I M.Pd	1	5	47	77	575	94.61%
Prof. Dr Ersis Warmansyah Abbas, M.Pd	22	38	372	625	3248	92.70%

Lecturer/Teaching Team	Strongly Disagree	Disagree	Moderately Agree	Agree	Strongly Agree	Likert Scale (%)
Rizky Amelia, M.Pd.	3	8	28	83	583	95.04%

Based on the data table above, the questionnaire results are divided into 3 (three) classifications, namely: Very satisfactory (91-95%), satisfactory (86-90%), and sufficient (80-85%). Performance in this case the performance of lecturers in learning in Social Studies Education Study Programme generally fulfils 68%. This matter is interpreted that more than 50% of students are satisfied with the teaching performance of IPS Education Study Program lecturers. Meanwhile, Social Studies Education Study Programme in general always conducts internal monitoring by conducting study programme meetings related to improving learning performance. Through this forum, the Social Studies Education Study Program is trained in e-learning management to socialise the completeness of online learning administration during the odd semester of the 2020/2021 academic year.

f. Recommendation

1. For Lecturers

As input related to improving the quality of learning, especially in online learning. Thus, creating effective and efficient online learning.

2. For Students

Increase participation in online learning courses. This is so that students realise that there is post-semester monitoring.

7. Maths Education

a. Lecturer Attendance in Giving Lectures

Lecturer attendance during learning is assessed based on data in the learning journal for each course. In accordance with the outline of the learning guidelines for the FKIP ULM Mathematics Education study programme, the target attendance of lecturers for each FKIP ULM Mathematics Education study programme course for one semester is 16 face-to-face meetings including UTS and UAS. Lecturer attendance data during learning is in Table 7. 1.

The results of the analysis of the attendance of lecturers in the FKIP ULM Mathematics Education study programme in the odd semester of the 2020/2021 academic year are in the form of findings of a 100% attendance percentage, but the distribution of attendance filling is not balanced. There are several courses that are actually fully present 16 meetings but because they forget to fill in attendance so they are not considered 100%. The average attendance of lecturers in the Mathematics Education Study Programme has met the minimum requirements for the number of face-to-face learning sessions for one semester, namely 16 face-to-face meetings with an average attendance of 98.1%. Attendance of less than 80% occurred due to forgetting to fill attendance at the 16th meeting (UAS). This happened because the 16th meeting was separated from routine lecture activities.

b. Student Attendance in Lectures

Student attendance can be evaluated based on student attendance in each course. Students who are allowed to take the final semester exam are students who attend learning activities for more than 80% of attendance. The recapitulation of student attendance during learning is in Table 7.2.

Table 7.2. Student Attendance in Lectures

The results of the analysis of student attendance in the FKIP ULM Mathematics Education study programme in the odd semester of the 2020/2021 academic year. There are 16 classes (24.2%) out of 66 classes with 100% student attendance. The percentage of student attendance is more than 80% except for the English class A1 course. The percentage of student attendance in English Class A1 is 77.84% which is less than 80% (80% is the minimum attendance requirement per student to take the final exam). The contribution of attendance that is less than 80% is dominated by general or faculty courses.

c. Student Learning Completeness

Student learning completeness is assessed based on the final grade data obtained by students for each category, namely A, A-, B+, B, B-, C+, C, D+, D, and E in the DPNA which has been validated on the SIMARI Lecturer Academic Portal. The assessment system for determining the final grade uses the criterion reference assessment (PAK) stated in the Revised Academic Regulations of 2016 in Chapter XII Article 36. Data on the learning completeness of mathematics education study programme students in the odd semester of the 2020/2021 academic year is contained in Table 7.3.

Table 7.3. Student Learning Completeness

The results of the analysis of student learning completeness in the FKIP ULM Mathematics Education study programme in the odd semester of the 2020/2021 academic year. The highest percentage of student learning completeness is the A grade category with 25.5%. The percentage of students in the pass category, namely grades A, A-, B+, B, B-, C+, and C is 95.6%. The percentage of students in the non-passing category, namely grades D+, D, and E, was 4.4%.

d. Achievement of lecture material

To evaluate the extent to which the achievement of course material can be seen based on face-to-face learning with the RPS (Semester Learning Plan) of each course. Basically, the material achievement of the FKIP ULM Mathematics Education study programme is good. Students have received material / competencies according to their respective courses. The results of material achievement during learning can be seen in Table 7.4 as follows

Table 7.4 Achievement of lecture material

No.	Lecturer/Teaching Team	Course Name	Class	Percentage of Achievement as per RPS

Average				97,86	98,28	96,94	98,08

**No data

The results of the analysis of the achievement of lecture material in the FKIP ULM Mathematics Education study programme in the odd semester of the 2020/2021 academic year. The average material achievement in semester 1 was 97.86%, in semester 3 it was 98.28%, semester 5 was 97.12%, and semester 7 was 98.08%. The highest percentage of material achievement was 100% which was achieved by 46 courses. The highest percentage of material achievement was 80% which was achieved by Geometry class A. Achievement of MK material with lecturers outside the study programme requires coordination with the lecturer directly.

e. Evaluation of Lecturer Performance in Learning

To evaluate the performance of lecturers in learning in each course, a questionnaire is distributed that must be filled in by students as well as providing criticism and suggestions for each lecturer in the FKIP ULM Mathematics Education study programme. The questionnaire used refers to the questionnaire that has been made by the University. The aspects assessed are as follows.

1. Lecturer attendance is always on schedule
2. Course material in accordance with syllabi
3. Resources/lecture materials are available in the reading room
4. Lecturer provides supporting references
5. The lecture material is easy to understand
6. Lecturer's mastery of course material

7. Got a lot of new material/ something
8. Lecturer provides exercises and discussion of the questions
9. Lecturers are very helpful in learning (providing opportunities for questions, consultations, discussions, etc.)
10. Questions/tests/quizzes are in accordance with the quiz material
11. Questions/tests/quizzes are not too difficult/medium
12. Lecturers are transparent in giving final grades
13. Lecturers utilise ULM's e learning media facilities
14. Lecturers actively conduct forum discussions and hold quizzes on e learning

15. Lecturers share learning materials that are distributed through e learning Based on these aspects, students fill in each aspect with

answers strongly disagree, disagree, moderately agree, agree, and strongly agree. Data on the Evaluation of Lecturer Performance in Learning is contained in Table 7.5.

Table 7.5. Evaluation of Lecturer Performance in Learning

No.	Lecturer/Teaching Team	Course Name	Class	Total Assessment					Likert Scale (%)

Based on the results of the analysis, it is found that the average evaluation of lecturers' performance in learning in the Mathematics Education Study Program in the odd semester 2020/2021 is 89.77%, which is in the excellent category. The highest performance index in the mathematics education study program in the odd semester of 2020/2021 was obtained by a lecturer on behalf of Prof.Dr. Sutarto Hadi, M.Si, M.Sc with a score of 94.31% which is in the excellent category, and the lowest performance index in the mathematics education study program in the odd semester of 2020/2021 was obtained by a lecturer on behalf of Dr.Harja Santanapurba, M.Kom with a score of 84.36% which is in the excellent category. The average evaluation of lecturer performance in learning in the Mathematics Education Study Program in odd semester 2020/2021 is 89.77% which is in the excellent category. The highest performance index in the mathematics education study programme in the odd semester 2020/2021 was obtained by a lecturer on behalf of Prof.Dr. Sutarto Hadi, M.Si, M.Sc with a score of 94.31% which is in the excellent category. The lowest performance index in the

mathematics education study programme in the odd semester 2020/2021 was obtained by lecturers on behalf of Dr.Harja Santanapurba, M.Kom with a score of 84.36% which is in the excellent category.

f. Recommendation

1) We recommend that before the lecture starts, the team of lecturers teaching the course discuss the distribution of filling in the lecturer's attendance on the academic portal.
2) It is better for the lecturer team to remind each other if someone has not filled in the attendance of lecturers based on the agreement on the distribution of lecturer attendance.
3) The attendance of the lecturer team could be improved.
4) It is better to synchronise the UAS attendance list and the regular lecture attendance list.
5) It is necessary to give positive appreciation to students for trying to attend all lecture meetings
6) Ahead of the final exam, lecturers are expected to remind students about their attendance, which must be more than 80%.
7) It is necessary to give positive appreciation to students for trying to attend more than 80% of lecture meetings

8) The lack of attendance percentage may be due to the fact that there are students whose attendance is less than 80%, so further information is needed on why the percentage of attendance is less than 80%.
9) Lecturers teaching MK are reminded of the minimum number of student attendance, both students in their own study programme and students from other study programmes they teach.
10) Before starting the lecture, the study programme should coordinate with lecturers outside the study programme so that after the lecture is over, the lecturer has prepared the necessary data.
11) The lecturer performance index is expected to always be in a better condition and further improved.
12) To give appreciation to lecturers who obtain the highest performance index so that it becomes a motivation for others to further improve the quality of learning implementation.
13) Lecturers who have the lowest performance index score obtained are still in the excellent category, but need to be motivated to further improve the quality of learning. The assessment aspects that are the weaknesses of the lecturers concerned should be conveyed so that improvements can be made.
14) It is hoped that student cooperation will actively participate in filling out the questionnaire and providing input to the Quality Assurance Group of the Mathematics Education Study Program at FKIP ULM regarding lecturer performance and the teaching and learning process so that the monitoring and evaluation process runs smoothly.

8. Biology Education

a. Lecturer Attendance in Giving Lectures

In the Biology education study programme in the odd semester of the 2020/2021 academic year. The implementation of teaching is carried out online using various facilities such as *zoom meetings, google meetings* and supported by an LMS (Learning Management system) in the form of simari. Lectures that use a *team teaching* system make it easier for lecturers to attend lectures, so that in the implementation of learning, lecturers who are members of the team usually attend, but because the simari presence only facilitates 1 lecturer to fill in the attendance list per meeting, so in each meeting the lecturers fill in the presence varies. Lectures are scheduled for 16 meetings with different details in each course, while in classes that are included in practicum courses, meetings are held 11-14 times in accordance with CPMK. The summary of lecturer attendance in the course can be seen in Table 8.1.

Table 8.1 Lecturer Attendance in Giving Lectures

Course Name	Class	Lecturer/Teaching Team	Number of Lecturer Attendance	Lecturer Attendance Percentage (%)

Based on the data in Table 8.1, it is known that the attendance of the lecturer team in each course reached 100% of the lectures held. Based on the recapitulation of the results of monitoring and evaluation of the odd semester lecturers in the Biology education study programme of FKIP ULM in the 2020/2021 academic year, it is known that lectures in the Biology education study programme are conducted by *team teaching* so that each lecturer in the class presented can attend lectures. The attendance of lecturers in the Biology education study programme has met the requirements for the number of face-to-face meetings both online in lectures in the odd semester of the 2020/2021 academic year.

b. Student Attendance in Lectures

Student attendance is based on student attendance in each course. Students who are allowed to take the lecture exam are students who attend learning activities for >80% attendance. The following is a recapitulation of student attendance during learning.

Table 8.2 Student Attendance in Lectures

No.	Lecturer/Teaching Team	Course Name	Class	Percentage of Student Attendance (%)

Based on the table above, the average result of student attendance in lectures in the Biology Education Study Programme is **99.82%.** This result shows that students have fulfilled the learning attendance requirements for one semester.

One of the factors that support student attendance is that the lecturer in charge of the course at every first meeting of the lecture conveys the RPS and lecture contract which includes the requirement to take part in UAS activities> 80% attendance. Every lecture the lecturer reminds to take attendance so that this encourages high attendance rates. Based on the recapitulation of the results of the assessment of students in the odd semester of the Biology Education Study Program of FKIP ULM in the 2020/2021 academic year, it is known that student attendance in odd lectures in the 2020/2021 academic year in the Biology Education Study Program is **99.82%**, which indicates that students have met the attendance requirements for one semester. Students who do not attend lectures are less than 2%, this indicates a high participation rate in the implementation of lectures.

c. Student Learning Completeness

Student learning completeness is closely related to the results of the grades obtained by students. In essence, the evaluation of student learning outcomes is carried out, namely the value of assignments in the form of assignments (homework, making papers, etc.); quizzes (both scheduled and unscheduled), reports on the results of

practicum, participation, field work, laboratory, or practicum / practical exams, Midterm Exams (UTS), and Final Semester Exams (UAS), as well as other evaluations that do not conflict with applicable regulations. Based on the academic guidelines of Lambung Magkurat University, the assessment weight for student graduation in each course is Assignments (30%), UTS (30%) and UAS (40%). To convert numerical values into letter grades and letter grade weights are used

Guidelines. The final grade is in numbers (0 - 100) and converted to letters (A, B^+ , B, C^+ , C, D^+ , D and E) following academic rules.

Students are said to be complete in the lecture process based on the final grade which is converted to at least a C grade. In the odd semester of the 2020/2021 academic year, 40 courses in the Biology education study programme are presented with grades A, B^+ , B, C^+ , C, D^+ , D and E.

Table 8.3 Student learning completeness

Students who get grades D +, D and E are obliged to repeat the course, while the percentage of students who get these grades is 0.14%, 0.18% and 0.41% respectively, still less than 1% of the number of students in the Biology education study programme. While the largest percentage of students is obtained from students who get A grades as much as 49.58%. This shows that almost half of the students get A grades from the courses offered.

Based on the recapitulation of the results of student assessments in the odd semester of the Biology education study programme at FKIP ULM in the 2020/2021 academic year, it is known that more than 98% of student grades in the odd semester of the 2020/2021 academic year have met the criteria for course completeness so that the learning outcomes can be categorised as successful. The percentage of students who get grades D +, D and E is 0.14%, 0.18% and 0.41% respectively, still less than 1% of the total number of students and the number of courses offered in the Biology education study programme, while students who get grades D +, D and E refer to the same and repeated students. achievement of Lecture Materials.

d. Achievement of lecture material

In the Biology education study programme in the odd semester of the 2020/2021 academic year. The implementation of learning is carried out online using various facilities such as *zoom meetings, google meetings* and supported by an LMS (*learning Management system*) in the form of simari. The achievement of the material in the course reflects the direction that learning will take. Course material achievement

measured by benchmarks of ability formulated in learning achievements. Optimal achievement refers to the achievement of the CPMK of the course. In the odd semester there are 4 semesters presented consisting of 36 study programme courses and 7 compulsory courses from the faculty & Lambung Mangkurat University.

Table 8.4 Achievement of lecture material

Based on the summary data, it is known that the achievement of lecture material in each odd semester is more than 95%. In semester 1 the average achievement of course material was 98.8%, in semester 3 the average achievement of course material was 99.45%. In semester 5 the average achievement of lecture material was 98.55% and in semester 7 the average achievement of lecture material was 97.71%. So in the data above, it is known that the highest achievement is in semester 5 lectures, while the lowest achievement is in semester 7. As for some of the obstacles that cause it not to be achieved up to 100% on lecture material as follows:

a. There are practicum activities that cannot be carried out by students online, so that the material is not conveyed optimally.
b. Assignments given to students cannot be completed properly due to various obstacles such as network difficulties and time management, as a result the material is not conveyed optimally.
c. There are courses in semester 7 that are active for students in the 2013 curriculum, because the student is late in taking the course. Based on the recapitulation of the odd semester results of the FETT Biology education study programme.

ULM academic year 2020/2021, it is known that courses that are not achieved

100% of the lecture materials are courses in which there is a practicum/tutorial. More than 97% of lecture materials in the odd semester of the 2020/2021 academic year have met the achievement criteria even though the lectures are conducted online.

e. Evaluation of Lecturer Performance in Learning

Evaluation of lecturer performance in learning in each course is carried out by filling out a questionnaire that must be filled out by each student through the SIMARI Portal in their respective accounts at the end of the semester lecture and providing criticism and suggestions for each subject lecturer. The aspects that are assessed are as follows:

1. Lecturer attendance is always on schedule
2. Course material in accordance with syllabi
3. Course resources are available in the Reading Room
4. Lecturer provides supporting references
5. The lecture material is easy to understand
6. Lecturer's mastery of course material
7. Got a lot of new material/something
8. Lecturer provides exercises and discussion of the questions
9. Lecturers are very helpful in learning (providing opportunities for questions, consultations, discussions, etc.)
10. Questions/quizzes/tests in accordance with the lecture material
11. Questions/quizzes/tests are not too difficult/medium
12. Lecturers are transparent in giving final grades
13. Lecturers utilise ULM e-learning media facilities
14. Lecturers actively conduct forum discussions and hold quizzes on e-learning
15. Lecturers share learning materials distributed through e-learning The results of the questionnaire distribution data obtained the following results in Table 8.5

Table 8.5 Evaluation of Lecturer Performance in Learning

Based on the table above, the average result of the evaluation of lecturer performance by students in learning in the Biology Education Study Programme is 93.17% with very suitable criteria. This result shows that according to

the results of student assessment of lecturer performance in carrying out learning obtained an assessment of 93.17% very suitable based on 15 aspects of the question, namely: Lecturers' attendance is always on schedule, lecture material is in accordance with the syllabus, sources / materials are available in the Reading Room, lecturers provide supporting references, lecture material is easy to understand, lecturers' mastery of course material, get a lot of material / something new, lecturers provide exercises and discussion of the questions, lecturers are very helpful in learning (provide opportunities to ask, consultation, discussion, etc.), questions / quizzes / tests are in accordance with the course material, questions / quizzes / tests are not too difficult / moderate, lecturers are transparent in giving final grades, lecturers take advantage of ULM e-learning learning media facilities, lecturers actively conduct forum discussions and hold quizzes on e-learning, lecturers share learning materials distributed through e-learning. These results are a reference for performance in the next period that at least the results of lecturer performance are maintained in very suitable and maximum criteria so that they can be improved more than the results that have been achieved (increase in the average percentage of assessment results).

Based on the recapitulation of the results of the assessment of students in the odd semester of the Biology education study programme at FKIP ULM in the 2020/2021 academic year, it can be seen that according to the results of student assessments, the performance of lecturers in carrying out learning is 93.17% very suitable based on 15 aspects of the question, namely: Lecturer attendance is always on schedule, lecture material is in accordance with the syllabus, lecture sources/materials are available in the Reading Room, lecturers provide supporting references, lecture material is easy to understand, lecturers' mastery of course material, get a lot of new material/something, lecturers provide exercises and discussion of the questions, lecturers are very helpful in learning, questions/quizzes/tests are in accordance with course material, questions/quizzes/tests are not too difficult/medium, lecturers are transparent in giving final grades, lecturers take advantage of ULM e-learning learning media facilities and discussions.

f. Recommendation

1) The percentage of attendance has reached 100% so it is necessary to maintain the attendance of lecturers/lecturer teams, even though lectures are held online.
2) Maintaining student attendance above > 80% of the total face-to-face meetings, as for steps that can be implemented by lecturers such as: lecturer in charge of the

course at every first meeting of the lecture

submit the RPS and lecture contract which includes the requirement to participate in UAS activities >80% attendance.

3) Students who obtain grades D+, D and E are obliged to repeat the course in the following year, so it requires student commitment and perseverance in the next lecture.
4) Provide special *treatment* to students who are academically weak so as to provide repetition of material
5) To maximise the achievement of lecture material in the next semester, the lecturer in charge of the course can develop videos that contain practicum. Or it can also replace the practicum that is carried out with a simpler one but still achieves the lecture material.
6) To maximise learning management, lecturers and students can use simari LMS.
7) These results are a reference for performance in the next period that at least the results of lecturer performance are maintained at very suitable and maximum criteria so that they can be improved more than the results that have been achieved (increase in the average percentage of assessment results).

9. Chemistry Education

a. Lecturer Attendance in Giving Lectures

The following is a recapitulation of data for the indicator "Lecturer Attendance in Giving Lectures" where the average attendance of lecturers is 84% including Practicum Courses (MK), Chemistry Seminars, other regular MK. The recapitulation of this attendance is 16 meetings including UTS and UAS. This indicator is also supported by data outside of this recapitulation, namely data from the "SIMARI satisfaction questionnaire" that the percentage (%) of lecturer attendance is 94.62% so that overall that the lecturer's life in lectures is fulfilled and according to standards. With an average lecturer attendance of 84%, it is concluded that the presence of lecturers in Chemistry Education PS lectures meets the standard attendance requirements.

b. Student Attendance in Lectures

The next indicator is student attendance in lectures where the average data

recapitulation is below 99% in the various MKs that are followed. This means that students are very obedient and obedient in following the lecture process during one semester. Their attendance (students) in lectures is one of the main components in supporting the quality and quality of management of the PS Chemical Education FKIP ULM.

Table 9.2. Student Attendance in Lectures

c. Student Learning Completeness

The following is a recapitulation of the learning completeness of students (i) PS Chemical Education FKIP ULM by looking at the percentage of students who received grades A, A-, B +, B, B-, C +, C, D +, D, and E. Overall, the recapitulation of students who received A grades was 527 students with a percentage of 25.63%, A- grades (543 students) with a percentage of 26.51%, grade B+ (339 students) with a percentage of 16.49%, grade B (372 students) with a percentage of 18.09%, grade B- (109 students) with a percentage of 5.30%, grade C+ (75 students) with a percentage of 3.64%, grade C (70 students) with a percentage of 3.40%, grade D+ (17 students) with a percentage of 0.83%, grade D (1 student) with a percentage of 0.05%, and grade E (1 student) with a percentage of 0.05%. Can

It can be seen that the highest percentage of students obtained an A grade with a percentage of 25.63% while those who obtained the lowest score were only 1 student with an E grade of 0.05%. This means that the Chemistry Education Study Program students have the ability according to the standards carried out during the lecture process so that it shows that the Chemistry Education Study Program students have great potential and development.

d. Achievement of lecture material

The following is an indicator of the achievement of lecture material where all activities reach a percentage of 100%. This means that in the context of lectures that the achievement of lecture material has been achieved well so that this proves that the implementation of lecture material in the Chemistry Education PS FKIP ULM. Another thing that supports this achievement is data from the SIMARI ULM portal on the indicator "lecture material in accordance with the syllabus" with a percentage of 95.05%, the indicator "lecturers provide supporting references" 93.86%, and the

indicator "lecture material is easy to understand" 92.10%. The percentage described shows that the achievement of lecture material has been achieved in semesters 1, 3, 5, and 7.

Table 9.4. Achievement of lecture material

e. Lecturer Performance Evaluation Results

The following is an evaluation of the performance of lecturers who carry out the lecture process at the FKIP ULM Chemistry Education Study Program where data is obtained from the SIMARI Portal: Integrated Lambung Mangkurat University Information System. All applications are interconnected and do not overlap SIMARI was developed with the SIMPUN principle (Systematic, Informative, Independent, Participatory, Whole & Non-redundancy). From the data presented in the table below, the overall evaluation of lecturer performance is 93.12% and this percentage shows that on average lecturers have good performance and according to standards. Although the lowest percentage is 86.96%, this value is still considered a percentage that still represents that the performance of lecturers in the Chemistry Education Study Program at FKIP ULM is very good.

f. Recommendation

1) For Lecturers

Indicators that are oriented towards the performance index of FKIP ULM Chemistry Education PS lecturers are expected to always increase by making progress and various innovative strategies in the context of learning so that the quality, quality, and achievement of learning are always in good condition.

2) For Students

Student participation and activeness are expected not only in the context of learning but also in assessment techniques through filling out questionnaires so that monitoring and evaluation of the Chemistry Education PS FKIP ULM is always running and controlled.

Based on Table 10.1, several findings can be made, including:

(1) there are 74% of courses recorded in SIMARI that have implemented the academic regulations that apply at ULM, namely, the number of lectures is at least 80% of the maximum number planned. (2) 55% of courses with l e c t u r e r attendance (number of lectures) that managed to reach 100% (16 meetings, including UTS and UAS), (3) there are 25% of lecturers recorded in SIMARI with attendance that does not reach 50%, (4) there are 18.75% of lecturers recorded in SIMARI who do not conduct lectures. For points (3) and (4), basically the lecturers in question are not not conducting lectures, but carrying out the lecture process using other facilities or *Learning Management System* (*LMS*) (other than *e-learning* simari ulm).

Based on the findings above, the GPM of the Physics Education Study Programme recommends: (1) coordination between lecturers in charge of the course is needed in terms of the distribution of lectures, so that it remains in accordance with applicable regulations, (2) the results of ongoing monitoring related to the implementation of lectures will be submitted by GPM every month to all lecturers, (3) GPM reminds lecturers teaching MK to actively carry out lecture attendance on the SIMARI ULM academic / *e-learning* portal.

	Thesis	B 17	100%

Based on Table 10.2, several findings can be made, including:

(1) The average number of lectures for all courses attended by students is 80% of the total number of meetings. (2) there are 47% (46 out of 97) courses that take place in the odd semester 2020/2021 with a 100% student attendance percentage. (3) there are 12.37% (12 out of 97) courses with 0% student attendance. In line with the findings on the percentage of lecturer attendance, the number referred to in point (3) is strongly suspected not because students do not attend lectures, but students conduct lectures whose attendance is not recorded in the academic portal. This is due to the lack of integration of the presence on the academic portal with the presence on the *e-learning* simari ulm. In some cases, lecturers do not fill in attendance on the academic portal which is used as a database for this reporting. In addition, some lecturers also utilise LMS other than *ULM e-learning* for learning.

Based on the findings above, the GPM of the Physics Education Study Programme recommends: (1) The results of ongoing monitoring related to the implementation of lectures will be submitted by GPM every month to all students, (3) GPM reminds lecturers teaching MK to actively carry out lecture attendance on the SIMARI ULM academic portal as a database for preparing lecture/learning M&E reports.

c. Student Learning Completeness

Based on Table 10.3, several findings can be stated regarding student learning completeness, including: (1) 92% of courses (MK) in the odd semester 2020/2021 were recorded with student learning completeness above 60%, (2) when viewed from the number of students attending lectures, the average number of students who are complete for each course is 95%, (3) the percentage of students who are able to complete the thesis (up to the thesis exam) at the end of the semester (3).

The odd semester 2020/2021 is only 41% (26 students out of a total of 62 who programmed the thesis MK).

Based on the findings above, the GPM of the Physics Education Study Programme recommends: (1) the need to emphasise the synergy between course learning outcomes and ongoing lecture activities, (2) a special policy is needed for students who have programmed certain MK more than 2 times in order to apply the concept of *mastery learning* for the students concerned,

(3) thesis supervisors must intensively pay attention to the progress of the thesis of their students, (4) special *treatment* is needed for students who are unable to complete the thesis for more than 2 semesters, (5) lecturers teaching courses with a completeness rate that is still below 60% can conduct in-depth studies / research related to student learning disabilities.

Based on Table 10.4, several findings can be made regarding the achievement of lecture material, including: (1) there are 95% (62 out of a total of 65) of MKs that have completed their lecture material well, which is above 80%, (2) there are 3 courses (MK) in the odd semester 2020/2021 with the achievement of lecture material below 70%, (3) there are 3 classes of courses with a material achievement level of 0%, which involves students repeating the course (*recourse*).

Based on the findings above, the GPM of the Physics Education Study Programme recommends: (1) every lecturer with an achievement below 70% needs to review the RPS prepared, for the process of adjusting the time allocation so that the lecture material can be completed within the planned time span, (2) special *treatment* is needed for students who have programmed certain MK more than 2 times, one of which is by applying the concept of *mastery learning*, (3) Lecturers teaching MK are reminded to be able to change the lecture schedule if it coincides with ineffective times, or other reasons so that the number of lectures is still fulfilled as stated in the RPS.

21	English	Raisa Fadilla	A, B	2	6	51	116	275	89.16

Based on Table 10.5 regarding the evaluation of lecturer performance by students, it is noted that all lecturers who teach MK in the Physics Education study programme in the odd semester 2020/2021 have good performance, namely with achievements above 85%. One lecturer whose achievement is still below 80% is more due to the accumulation of learning assessments as a *team teaching*. This also confirms the weaknesses of the current lecturer performance evaluation system, where the assessment is focused on courses, not based on the performance of individual lecturers in each course. Lecturers in *team teaching* are assessed as one unit, while it is not certain that the contribution of each lecturer in the team teaching is the same.

Recommendations related to findings related to lecturer performance evaluation are that each lecturer is expected to actively evaluate their own performance by paying attention to student suggestions on the academic portal, in order to improve, including providing clarification on matters deemed important / necessary.

f. Recommendation

1) Coordination is needed between lecturers in charge of courses in terms of the distribution of lectures, so that they remain in accordance with applicable regulations,
2) The results of ongoing monitoring related to the implementation of lectures will be conveyed by GPM every month to all lecturers, and students.
3) GPM reminds mk teaching lecturers to actively carry out lecture attendance on the simari ulm academic portal as a database for preparing lecture / learning monev reports.
4) The need to emphasise the synergy between course learning outcomes and ongoing lecture activities,
5) A special policy is needed for students who have programmed certain courses more than 2 times in order to apply the concept of *mastery learning* for the students concerned,
6) Thesis supervisors must intensively pay attention to the progress of their students' theses,
7) Special *treatment* is needed for students who are unable to complete their thesis for more than 2 semesters.
8) Lecturers teaching courses with a completion rate that is still below 60% can conduct in-depth studies / research related to student learning disabilities.
9) Every lecturer with an achievement below 70% needs to review the rps prepared, for the process of adjusting the time allocation so that the lecture material can be completed within the planned time span,
10) Lecturers in charge of MK need to be reminded to be able to change the lecture schedule if it coincides with ineffective times, or other reasons so that the number of lectures is still fulfilled as stated in the RPS.
11) Each lecturer is expected to actively evaluate their own performance by taking into account student suggestions on the academic portal, in order to improve, including providing clarification on matters that are considered important / necessary.

11. Science Education

a. Lecturer Attendance in Giving Lectures

Lecturer attendance data was taken from the Integrated Lambung Mangkurat University Information System (SIMARI) application. Based on the data obtained, the attendance of lecturers in giving lectures can be shown in Table 11.1.

Table 11.1. Lecturer Attendance in Lectures

	Thesis		Sauqina,	2	

Based on Table 11. 1 above, there are 34 courses presented in the odd semester 2020/2021. There are several findings in the attendance data of lecturers teaching the 2020/2021 odd semester courses in the Science Education Study Programme. There are lecturers who attend lectures as many as 15 meetings for 1 course. Lecturers who attended lectures 16 times a meeting were 32 courses. Lecturers attended lectures 18 times as many meetings as 1 course. Based on this data, the percentage of lecturer attendance is included in the very good category, although there is still one course that is held in 15 meetings. Recommendations that can be given to the lecturer concerned are to be able to fulfil 16 meetings in one semester.

b. Student Attendance in Lectures

Student attendance in lectures in the odd semester 2020/2021 can be obtained from the SIMARI application at Lambung Mangkurat University. The attendance of Science Education Study Programme students during the odd semester 2020/2021 can be seen in Table 11.2.

Table 11.2. Student Attendance in Lectures

The percentage of student attendance ranged from 85 - 100%. This finding indicates that students follow the lectures well. Lectures for the odd semester 2020/2021 were held face-to-face and online learning. Based on these findings, online learning in the science education study programme can be carried out smoothly even though it still requires adaptation from both lecturers and students by using learning via the SIMARI ULM application, zoom, google classroom, and other applications.

c. Student Learning Completeness

Student learning completeness in odd semester lectures 2020/2021 can be obtained from the SIMARI application at Lambung Mangkurat University. The completeness of student learning in the Science Education Study Programme during the odd semester 2020/2021 can be seen in Table 11.3 below:

Table 11.3. Student Learning Completeness

No.	Lecturer/Teaching Team	Course Name	Class	Number of students who scored:										
				A	A-	B+	B	B-	C+	C	C-	D+	D	E
45	Yudha Irhasyuarna, S.Pd., M.Pd./Mella Mutika Sari, S. Pd, M. Pd.	Learner Development	A1	2	4	5	13	3		1			1	

Based on the table above, the courses presented in the odd semester 2020/2021 are 34 courses with 45 classes. There are 6 classes of courses in which there are still students who get a grade E. There are still students who get a grade E, because the student stopped studying but is still registered in simari. There are still students who get D grades, because the students stop studying in the middle of the semester but are still registered in simari.

The percentage of student learning completeness is mostly good, with percentages for grades A, A-, B+, and B being 40.31%; 19.90%; 10.43% and 16.99% respectively. While for grades C+, C, D+, D and E are 2.38%; 2.76%; 0.67%; 0.60% and 0.52%. Based on these findings, it was found that there were still students who received grade E. This was caused by 2 students who resigned in the middle of the lecture from the Science Education study programme.

d. Achievement of lecture material

The achievement of lecture material for the odd semester 2020/2021 can be obtained from the SIMARI application at Lambung Mangkurat University. The achievement of the Science Education Study Programme lecture material during the odd semester 2020/2021 can be seen in Table 11.4 below:

Table 11.4 Achievement of lecture material

The percentage of achievement of lecture material has mostly been implemented 100%. Based on these findings, the next recommendation is that lecturers can maintain the achievement.

e. Evaluation of Lecturer Performance in Learning

Evaluation of Lecturer Performance in Learning for the odd semester 2020/2021 can be obtained from the SIMARI application at Lambung Mangkurat University. Evaluation of Lecturer Performance in Learning for the Science Education Study Programme during the odd semester 2020/2021 can be seen in Table 11.5:

Based on the table above regarding the evaluation of lecturers' performance in learning lectures in the odd semester 2020/2021, it is found that there are 1 lecturer whose assessment is below 80%, 6 lecturers whose assessment is between 80% and 90%, and most lecturers get an assessment above 90%. The percentage of performance evaluation of lecturers in science education study programmes in learning is mostly good, namely getting an assessment above 90%. However, there are some lecturers whose assessment is below 80% and 90%. Based on the findings, this is due to the lack of lecturers concerned in utilising e-learning media, such as the use of quizzes and sharing teaching materials through e-learning.

f. Recommendation

1) Delivered to lecturers in order to fulfil lectures as many as 16 meetings according to POS Prodi science education.
2) The percentage of student attendance is generally more than 80% so that learning methods such as those that have been applied can be reused or can be varied according to learning that is almost entirely online.
3) It was conveyed to lecturers to be able to follow up, if after the Mid Semester Examination there are still students who are less active in lectures. Lecturers should also be able to assess early so that they can provide opportunities for students to improve grades if possible.
4) The percentage of course achievements in general is more than 95%, so each lecturer should maintain this achievement and be able to improve so that the

planned course material can be implemented 100%.

5) Followed up with a submission to lecturers to give grades transparently and to be more frequent in utilising e-learning media, including the use of quizzes and sharing teaching materials through e-teaching.

learning, and can vary with other learning media to support the achievement of Graduate Learning Outcomes.

12. Computer Science Education

a. Lecturer Attendance in Giving Lectures

Lectures in the odd semester of the 2020/2021 academic year start from 28 September 2020 to 21 January 2021. During this period, lectures are conducted online which are of course supported by applications that can support online lectures such as zoom, goole meet, google classroom and various features in e-learning (portal simari.ulm.ac.id). Based on lecturer attendance data obtained through the simari.ulm.ac.id portal with an executive account, summary data is obtained which is filled in the lecturer attendance monitoring instrument such as Table 12.1.

46	Review of Vocational Computer Science Curriculum	A1, A2	Dr R. Ati Sukmawati, M.Kom M. Hifdzi Adini, S. Kom.., M. T.	13	81%

Based on the table above, t h e class data presented in the odd semester of the 2020/2021 academic year is 46 classes. Lecturer attendance assessment indicators are divided into 4 (four) criteria, namely: **very fulfilled** (96% - 100%) by attending 16 meetings, **fulfilled** (90% - 95%) by attending 14-15 meetings, **moderately fulfilled** (80-89%) with 13 meetings, **less fulfilled (less** than equal to 79%).

Some classes have more than one lecturer so that the attendance is the combined result of several lecturers. The assumption on lecturer attendance is that only 1 lecturer takes attendance in simari even though the course has several lecturers. Based on the figure and table above, it can be seen that 30.4% of lecturers attended lectures for 16 full meetings. Then 39.1% of lecturers attended 14-15 meetings. Furthermore, 26.1% of lecturers attended 13 meetings. The remaining 4.3% fulfilled less than equal to 12 lecture meetings. Lecturer attendance in teaching is done through simari.ulm.ac.id. Some classes that have an attendance rate of less than 14 meetings are due to several reasons, namely (1) the lecturer forgot to make a presence in the simari account, (2) starting the lecture late and (3) the lack of meetings adjusting to the effective week of the lecture.

b. Student Attendance in Lectures

46	R Ati Sukmawati, Muhammad Hifdzi Adini	Curriculum Review Computer Science SMK	A1, A2	**98.37%**

From the data presented in the table above, only 43 out of 46 classes are included in the percentage. This is because the remaining 3 classes do not have lecturer attendance because the lecturer does not attend the class. These classes are school field practice, school teaching practice and thesis.

Furthermore, the number of student attendance percentages presented above is certainly related to lecturer attendance data due to the same number of attendances, resulting in a lack of student attendance percentages. In the data presented above, there are 67.4% of student attendance that meets the criteria very fulfilled, then 20.9% of student attendance is included in the criteria fulfilled, 7.0% of student attendance is included in the criteria moderately fulfilled and the last 4.7% of student attendance is included in the criteria less fulfilled.

c. Student Learning Completeness

The overall student learning completeness rate reached 86.88%, where the percentage was obtained from the total percentage of assessments with grades equal to or greater than C. While the percentage of grades above or equal to B was 69.87%. While the percentage of grades above or equal to B is 69.87%. The thing that makes learning completeness below 90% is because many students who take a thesis cannot complete it so they get an E. On average, the acquisition of E grades is 8.7%, there are almost half, namely 4%, which comes from thesis course students who cannot complete their thesis. In the aspect of student learning completeness, the computer science education study programme together with the quality assurance group certainly received a warning based on the data obtained in the sub-section of this report that thesis courses are a problem that needs to be resolved in order to produce students who can graduate on time (ranging from 7 to 9 semesters) in 1 period.

The results of the material achievement in accordance with the RPS are classified based on 4 (four) categories, namely: **very fulfilled** (96%-100%), **fulfilled** (90%-95%), **moderately fulfilled** (80%-89%), and **less fulfilled** (less than equal to 79%). Based on the data presented in the figure above, not all classes are able to hold the number of meetings in accordance with the RPS due to 3 (three) things, namely (1) forgetting to make attendance, (2) starting the lecture late and also (3) adjusting the effective week of recovery. These 3 things make the percentage value of learning achievement in accordance with the number of meetings in the RPS to be less. Although the percentage of achievement according to the RPS is less based on the factors mentioned above, the computer science education study programme and the quality assurance cluster team are still able to provide the entire material in accordance with the RPS to students.

e. Evaluation of Lecturer Performance in Learning

Based on the table data and also the diagram in the figure above**,** the questionnaire results are divided into 4 (four) classifications, namely: **Very Satisfactory** (91% - 95%), **Satisfactory** (86% -90%), **Fair** (80% -85%), and **Less satisfactory (**Less than equal to 79%). The computer science education study programme in general always conducts internal monitoring by holding study programme meetings related to improving learning performance. Through the meeting forum provided, the computer science education study programme conducts training in e-learning management to socialising the completeness of online learning administration during the odd semester of the 2020/2021 academic year.

f. Recommendation

1) Increase socialisation and internal monitoring of the computer science education study programme in coordination with the quality assurance group.
2) Remind lecturers of the importance of making attendance as an evaluation material for the quality assurance group if the lack of meetings is due to forgetting

to make attendance.

3) If the lecture meeting is less due to adjusting the effective week, it should replace the missing meeting to fulfil the number of meetings according to the RPS.
4) Increase socialisation to lecturers in the computer science education study programme on the importance of attendance both in real form and presence.

in simari so that the average attendance of lecturers is expected to reach very fulfilled criteria (96%) and also individual attendance of at least 90% or including fulfilled criteria.

5) Socialising to lecturers the importance of making attendance for students in order to validate student attendance data that will be used as evaluation material.
6) Encourage lecturers to always fill in attendance for validity of information on the achievement of lecture material.
7) Conduct socialisation to lecturers to increase responsiveness to be able to hold lectures on time
8) Increase monitoring of students who are considered to have low attendance rates so that they are willing and able to attend lectures.
9) Conduct periodic monitoring such as mid-semester of student attendance based on student attendance data
10) Monitoring learning in relation to assessment-based mastery.
11) Monitoring students who take thesis by suggesting they attend the computer science education study lab. This facilitates discussion with the supervisor, other lecturers, and friends of the student in order to spur the spirit of thesis work for timely graduation.
12) Monitoring learning related to the suitability of the material with the RPS of the course.
13) Improving performance through e-learning training
14) The computer science education programme and the quality assurance group conduct periodic monitoring to see the performance achievements of lecturers related to learning.
15) In addition to the average assessment of lecturer performance, of course the quality assurance team and the computer science education study programme can improve the performance of individual lecturers which can be done through various training and socialisation.

13. Primary School Teacher Education

a. Lecturer Attendance in Giving Lectures

The odd semester of the 2020/2021 academic year was held from 28 September 2020 to 21 January 2021. During this semester because it is still during the Covid 19 pandemic, learning and lectures are carried out through an online system (in the network). Online recovery activities are carried out through various *alternative systems* including *e-learning* forums *(SIMARI portal), via zoom, Google Meet, or Whatshap Group, and* other application features (adjusted to the learning needs of each course). Recovery activities for a full semester are fully submitted to the teaching lecturer team to agree with the class students concerned.

Based on the lecture process for one semester, a recap of the attendance data of lecturers in the learning process and lectures is obtained as follows.

Table 13.1 Lecturer Attendance in giving Lectures

No.	Course Name	Class	Lecturer/Teaching Team	Number of Lecturer Attendance	Lecturer Attendance Percentage (%)
1	Religion	1A	Ihda Ihrom, Lc, M.Pd.I	16	100%

Based on the table above, there are 217 courses presented in the odd semester 2020/2021. In the Primary School Teacher Education (PGSD) Study Programme, lecturer attendance is divided into 4 (four) criteria, namely; very fulfilled (96-100%) with the number of meetings> 15 meetings, fulfilled (90-95%) with the number of meetings> 14 meetings, and moderately fulfilled (80-89%) with the number of meetings 13 - 14 meetings, unfulfilled / needs reprimand (< 80%) with the number of meetings < 13 meetings.

Then from the figure above, the percentage of lecturer attendance will be clarified by the following table.

Table 13.2 Lecturer Attendance Criteria

No.	Criteria	Percentage of attendance (%)	Number of Meetings	Number of Classes	Class Percentage (%)
1	Very fulfilling	96 - 100 %	16	210	96,77
2	Fulfilled	90 - 95 %	15	5	2,3
3	Quite fulfilled	80 - 89 %	13 - 14	2	0,93
4	Not fulfilled	<80%	< 13	0	0

Based on the diagram and table above, it was found that 96.77% of lecturers

attended lectures for the full 16 meetings. Then, 2.3% fulfilled the attendance of 15 meetings, the remaining 0.93% only fulfilled 14 meetings. Overall, lecturers in the Primary School Teacher Education Study Programme completed lectures with very fulfilled criteria, namely 16 meetings. The presence of lecturers can be recorded directly through simari.ulm.ac.id. Although at the beginning of the lecture, there was confusion in the implementation of online lectures, but with the monitoring mechanism carried out by the Primary School Teacher Education Study Programme via scheduled virtual meetings, the lecturers were able to complete the lectures in a timely manner.

Lecture progress and lecturer attendance are always monitored. Among all lecturers who organise lectures, there are 2 classes taught by lecturers who only fulfil the criteria of Fairly Fulfilled.

Based on the analysis that has been carried out, the PGSD study programme will continue to strive to monitor lecture activities, lecturer attendance, student attendance and lecture materials to ensure and guarantee the implementation of lectures in accordance with the specified standards. Since 2016, the PGSD study programme has formed a Quality Development and Assurance Team, so that from year to year the achievement of lecturer attendance continues to increase. This is the result of the internal monitoring and evaluation process that has been carried out for the last 5 years, one of which is in the field of lecturer attendance in carrying out lectures.

The lecture monitoring system carried out in the PGSD environment is in stages, starting from monitoring which is carried out continuously every day and every week by the programme manager (study programme coordinator together with the Study Programme Secretary and TPPM Secretary) and monthly monitoring is carried out by the PGSD quality assurance and development team. The aspects monitored include: the implementation of the lecture schedule, the availability and adequacy and quality of facilities and infrastructure supporting lectures, the availability of administration in the lecture room such as: attendance lists of students and lecturers, lecture journals and lecturer RPS, lecturer attendance, reference materials (up-to-date and availability), learning media and learning IT facilities. While the end-of-semester monitoring is equipped with a learning process instrument distributed to students to obtain student responses about the lecture/learning process along with tasks and lecturer attendance as well as problems and suggestions or student expectations for a better lecture and learning process.

Apart from being caused by the monitoring process carried out regularly, the achievement of lecturer attendance results that meet the criteria of fulfilled and very fulfilled reaching 99.07% (92.77% Very fulfilled + 2.3% Fulfilled) is the result of a routine meeting of all lecturers and study programme managers held before the implementation of the next semester lecture process. This meeting presents the findings of lecture monitoring conducted by the Study Programme Coordinator, TPPM, study programme secretary and GPM members. Results

The findings are then evaluated together so that lecturer attendance problems can be minimised. This is proven by the findings of lecturers who conduct lectures under 14 meetings there are only 0.93% (2 classes).

b. Student Attendance in Lectures

The importance of student attendance in lectures is a prerequisite for eligibility to take the Final Semester Examination (UAS). Based on the academic guidelines of Lambung Mangkurat University, the tolerance for student absence is 80% of the total attendance of lecturers. Based on this provision, the Elementary School Teacher Education Study Programme identified (in the form of a percentage) student attendance during lectures in the odd semester of the 2020/2021 academic year. The following is the data presentation.

Table 13.3 Student Attendance Table

Based on the explanation of the table above, the following will be clarified with the criteria for student attendance as follows.

Table 13.4 Recapitulation of Student Attendance Percentage

No.	Criteria	Percentage (%)	Total	Percentage
1	Very fulfilling	100 %	197	90,78
2	Fulfilled	90 - 99 %	20	9,22
3	Quite fulfilled	80 - 89 %	0	0
4	Not fulfilled/necessary rebuke	<80%	0	0

The analysis of student attendance is categorised into 3 (three) criteria, namely the percentage of 100% attendance is interpreted as very fulfilled; 90 - 99% is interpreted as fulfilled and 80 - 89% is interpreted as moderately fulfilled, and <80% is interpreted as not fulfilled/needed.

Warning. Based on the table and diagram above, the number of student attendance in the **Very fulfilled** category is 90.78% consisting of 197 classes from 2017 course classes in the PGSD study programme, and the number of student attendance in the **Fulfilled** category is 9.22% consisting of 20 classes from 217 course classes in the PGSD study programme.

The results obtained in monitoring the odd semester of the 2020/2021 academic year are the impact of the implementation of POB on student attendance in lectures, this shows that the socialisation of POB has run optimally. POB regarding student attendance refers to the **Chancellor's** Regulation **Number: 5/UN8/PS/2013, which was updated with the Chancellor's Regulation Number: 01/UN8/PS/2015,** concerning the Implementation of Undergraduate Programmes at Lambung Mangkurat University. In accordance with the POS and the Rector's regulation, student attendance is required to be at least 80% to be able to take the final exam/UAS lecture. The attendance calculation is carried out with the following mechanism.

1) Each lecturer checks the attendance of students in the lecture according to their respective courses and checks the number of student attendance at the beginning of the lecture, or at the end of the lecture.
2) Students fill in the attendance list for each course they attend through the SIMARI page,
3) Operators and members of GPM PGSD collect data on student attendance lists every week and recap the number of attendances of each student every month.
4) The study programme gives a warning to students whose monthly attendance is less than 4 (four) in one month, except for holidays.
5) At the end of the semester, the study programme announces to lecturers and students the list of students whose attendance has not met the 80% requirement, except those who have permission.

Given that all PGSD lecturers have used various learning methods and strategies that demand high student activeness, it appears that student activeness in learning is formed. This can be seen when learning class discussions, simulations and inquiry activities, students are directly involved, even though learning is carried out online.

Based on the data obtained, the courses and classes whose attendance has not reached 100% are formulated in the following table.

Table 13.5 Recapitulation of the number of student attendance that has not reached 100%

Based on the data collected, several students who were absent and did not fill in the attendance list in the SIMARI account were questioned. The results of data collection obtained student attendance caused by :

1) The domicile of students who are in areas with a weak internet network causes students to be unable to log in to the platform used by lecturers during learning activities.
2) Students who usually look for internet networks out of their homes to places with better internet networks experience obstacles that cause them to not be able to do the same things as in previous lecture activities.
3) Students are sick or have personal or family commitments that prevent them from attending lectures.
4) Students who participate in family activities or events that cannot be left behind.

c. Student Learning Completeness

The recap of student learning completeness can be seen from the recap of simari results that have been uploaded by each lecturer with the assessment indicators received by students. The assessment of the final results of student learning consists of 30% assignment assessment / assessment during the learning process, 30% midterm exam (UTS), and 40% Final Semester Examination (UAS) assessment, which has then been accumulated into a final grade with qualifications A, A-, B+, B, B-, C+, C, C-, D+, D, and E. As stated in the first point that the courses presented are 134 courses. There are no courses that contain a general assessment due to late input. The following is a description of student learning completions with assessment indicators.

Table 13.6 Student learning completeness

198	Ihda Ihromi, Lc, M.Pd.I.	Religion	1/D	59	0	0	0	0	0	0	0	0	0	0

	Lecturer/Teachin			**Number of students who scored:**

No.	g Team	Course Name	Class	A	A-	B+	B	B-	C+	C	C-	D+	D	E
199	Ihda Ihromi, Lc, M.Pd.I.	Religion	1/E	61	1	0	0	0	0	0	0	0	0	0

The data obtained is then entered into a recapitulation at each letter grade level as follows.

Table 13.7 Recapitulation of Percentage of Students Getting Grades for Each Level

No.	Letter Grade	Number of students	Percentage (%)
1	A	5576	47,9
2	A-	4138	35,6
3	B+	1096	9,45
4	B	714	6,3
5	B-	33	0,3
6	C+	6	0,06
7	C	8	0,07
8	C-	0	0
9	D+	1	0,08
10	D	5	0,04
11	E	28	0,2
Total number of students scored		**11.686**	**100%**

Based on this data, it was found that the overall student learning completeness results almost reached 100% declared complete. This can be seen that the scores obtained were 47.90% of all PGSD students obtained grades with Qualification A, meaning that almost 50% of the total number of students could be declared complete in the learning process. In addition, the qualification data for the acquisition of A-, B+, and B grades were 51.35%, which means that these students also obtained completeness in accordance with the expectations of the vision of the study programme with the keywords Excellence, Professionalism and Character which have been regulated through the SOP for learning and lectures.

The successful achievement of students' final grades with a percentage of more than 95% of students getting grades in the complete category in lectures is a manifestation of the success of the implementation of learning which is regulated by the POB for the implementation of learning and to ensure objective and transparent assessments referring to high quality standards of the PGSD Study Programme by issuing POB regarding the assessment system. The POB regulates how the criteria for a student to get grades A, A-, B+, B, B-, C+,

C, C- and D. With these guidelines, students can correct and plan what grade they want at the end of the class.

Assessment of students to obtain the status of recognition of obtaining credits is carried out comprehensively and continuously, in the sense that it covers all aspects related to the objectives, processes and products (results) of learning (using the CIPP approach). To achieve the goal of comprehensive and sustainable assessment, in the evaluation to determine the success of students' mastery of certain courses with certain SKS weights, 3 (three) forms of evaluated activities are carried out. These activities are:

1. Midterm Examination (Midle Test), with a score weight of 3.
2) Assignments with a value weight of 3
3) End of semester exam (Final Test) with a score weight of 4

The three forms of activities evaluated with different weights to determine the final score use the following calculation formula:

$$Na = \frac{(3 \times MT) + (3 \times T) + (4 \times F)}{10}$$

Description:

Na= Final score obtained
MT= the average student score in the midterm exam
T= the average score obtained by students in the assignment given by students.
F = The final semester exam score obtained by students.

The final grades obtained are converted into quantity grades and quality grades as follows:

Table 13.8 Grade Conversion Criteria

Score	Value	Weight
≥80	**A**	**4,00**
77-<80	**A-**	**3,75**
75-<77	**B+**	**3.50**
70-<75	**B**	**3,00**
67-<70	**B-**	**2,75**
64-<67	**C+**	**2.50**
60-<64	**C**	**2,00**
50-<60	**D+**	**1.50**
40-<50	**D**	**1,00**
00-<40	**E**	**0**

d. Achievement of lecture material

The achievement of lecture material is monitored based on the suitability of the material with the Semester Learning Plan (RPS) of the course. The curriculum documents in the PGSD Study Programme are very complete which have been formulated according to the lecturer groups ranging from MKU, MKDK, MKPP, to MKKPP groups. The Quality Assurance Group has reviewed the suitability of the material based on the results of student evaluations of lecturer teaching on the simari.ulm.ac.id page questionnaire at the end of the semester and through weekly lecture minutes collected by all class leaders to TPPM and GPM. The following is a description of the data on the achievement of lecturer lecture material in the PGSD study programme.

Table 13.9 Achievement of lecture material

Based on the explanation of the table and diagram above, it will then be clarified with the criteria for the achievement of lecturer lecture material as follows:

Table `13.10 Recapitulation of Percentage of Achievement of Lecture Materials

No.	Criteria	Percentage (%)	Total	Percentage (%)
1	Very fulfilling	100 %	217	100
2	Fulfilled	90 - 99 %	0	0
3	Quite fulfilled	80 - 89 %	0	0
4	Not fulfilled/needs reprimand	<80%	0	0

The successful achievement of the implementation of lecture material which

shows that all lecturers implement all the material that has been formulated in the Semester Perkuliaha Plan is the result of the suitability of the lecturer's educational background with the courses taught and the competencies expected to be possessed by PGSD FKIP ULM graduates. In addition, to improve the suitability of the implementation of approaches, models and strategies with learning objectives, it is carried out through the preparation of RPS, RTP and RP by a team of lecturers as a guide in carrying out the learning process. This is strengthened by SOPs and other guidelines in improving the quality of learning. The results of monitoring the material preparation mechanism carried out by lecturers based on observations and documents are in accordance with the SOP which is carried out in teams by lecturers and presented to workshop participants.

In addition, the structure and range of activities enforced in lectures at PGSD include: scientific studies, simulations and exercises and practices. These activities are carried out proportionally, namely 60:40. The implementation of learning is carried out throughout the day within a period of each week, each day there are 2-3 courses for each class / grade. Lectures take place from 07.30 - 18.00.

e. Evaluation of Lecturer Performance in Learning

Evaluation of lecturer performance in learning is based on filling out questionnaires by students related to satisfaction in teaching. It is understood that the evaluation of lecturer performance in learning covers 3 (three) aspects: lecturer attendance, delivery of lecture material, and assessment. Based on these three aspects, 15 statement items were formulated. The evaluation of lecturer performance is aimed at assessing 56 lecturers in the Elementary School Teacher Education Study Program in the odd semester of the 2020/2021 academic year The following are the results of the evaluation of lecturer performance in learning.

Table 13.11 Evaluation of Lecturer Performance in Learning

No.	Lecturer/Teaching Team	Likert scale good rating (%)	Likert scale unfavourable rating (%)
1	Prof H. Rustam Effendi, M.Pd.	97,54%	2,46%
2	Dr Rina Listia, M.Pd.	96,42%	3,58%
3	Maryanto, S.Sn., M.Sn.	95,04%	4,96%
4	Drs. H. Kaspul, M.Si.	94,31%	5,69%
5	Dr H. Rusmansyah, M.Pd.	97,47%	2,53%
6	Dr Sunarno Basuki, Drs., M.Kes.	94,81%	5,19%
7	Dr Ali Rachman, S.Pd., M.Pd.	99,59%	0,41%
8	Dr Ririanti Rachmayanie Jamain, S.Psi, M.Pd.	96,35%	3,65%
9	Dr Nina Permata Sari, S.Psi, M.Pd.	98,93%	1,07%
10	Dr Sulistiyana, S.Pd., M.Pd.	99,18%	0,82%
11	Prof. Drs. H. Ahmad Suriansyah, M.Pd., Ph.D.	94,85%	5,15%
12	Prof. Dr Hj Aslamiah, M.Pd, Ph.D.	93,34%	6,66%
13	Dr H. M. Saleh, M.Pd.	95,75%	4,25%
14	Drs Sutiyarso, M.Pd.	90,27%	9,73%
15	Dr Hj Darmiyati, M.Pd.	95,54%	4,46%
16	Drs H. Ramadi, M.Pd.	97,30%	2,70%
17	Drs. Radiansyah, M.Pd.	95,14%	4,86%
18	Drs. H. Khairil Anwar, M.Pd.	95,05%	4,95%

No.	Lecturer/Teaching Team	Likert scale good rating (%)	Likert scale unfavourable rating (%)
19	Drs Mahmuddin, S.Pd., M.Pd.	95,05%	4,95%
20	Drs Sunarno, M.Pd.	94,57%	5,43%
21	Dr H. Metroyadi, SH, M.Pd.	97,88%	2,12%
22	Dr Ngadimun, MM.	90,65%	9,35%
23	Dr Noorhapizah, ST, M.Pd.	92,60%	7,40%
24	Amberansyah, S.Pd., M.Pd.	95,22%	4,78%
25	Dr Suhaimi, M.Pd.	97,40%	2,60%
26	Drs Asrani, M.Pd.	92,72%	7,28%
27	Tika Puspita Widya Rini, S.Pd., M.Pd.	97,15%	2,85%
28	Dessy Dwitalia Sari, S.Pd., M.Pd.	98,89%	1,11%
29	Ahmad Riandy Agusta, S.Pd., M.Pd.	97,43%	2,57%
30	Dr Hj Asniwati, S.Pd., M.Pd.	97,67%	2,33%
31	Dr H. Ahmad Muhyani Rizalie, M.Si.	95,09%	4,91%
32	Raihanah Sari, S.Pd., M.Pd.	95,07%	4,93%
33	Fathul Jannah, M.Pd.	96,85%	3,15%
34	Wahdah Refia Rafianti, S.Sn., M.Pd.	95,08%	4,92%
35	Herti Prastitasari, M.Pd.	96,80%	3,20%
36	Ari Hidayat, M.Pd.	97,01%	2,99%
37	Diani Ayu Pratiwi, M.Pd.	98,15%	1,85%
38	Zain Ahmad Fauzi, M.Pd.	99,97%	0,03%
39	Muhsinah Annisa, S.Si., M.Pd.	96,99%	3,01%
40	Dr Novitawati, S.Psi, M.Pd.	93,23%	6,77%
41	Dra. Hj Ike Hananik, M.Pd.	95,75%	4,25%
42	Dr Hj Susilawaty, M.Pd.	93,39%	6,61%
43	Mohammad Dani Wahyudi, S.Pd.I., M.Pd.	99,04%	0,96%
44	Ratna Purwanti, S.Pd., M.Pd.	96,68%	3,32%
45	Celia Cinantya, S.Kom., M.Pd.	95,20%	4,80%

No.	Lecturer/Teaching Team	Likert scale good rating (%)	Likert scale unfavourable rating (%)
46	Maimunah, M.Pd.	92,46%	7,54%
47	Ahmad Syadzali, M.Pd	98,35%	1,65%
48	Arif Rahman Prasetyo, M.Pd	97,50%	2,50%
49	Dede Dewantara, M.Pd	96,61%	3,39%
50	Dr Hj Isnawati, M.Pd	90,57%	9,43%
51	Dr Hj Mahrita, M.Pd	87,96%	12,04%
52	Dr Ir Agus Rifani Syaifuddin, MM	96,70%	3,30%
53	Drs H. Sulaiman, M.Pd., Ph.D.	94,48%	5,52%
54	Juhriyansyah Dalle, S.Pd., S.Si., M.Kom., Ph.D.	97,33%	2,67%
55	Nazaruddin, M.Pd	96,81%	3,19%
56	Yayuk Hartini, M.Pd	97,58%	2,42%

Based on the explanation of the table above, it will then be clarified with the criteria for Evaluating Lecturer Performance in Learning and its recapitulation as follows.

Table 13.12 Recapitulation of Lecturer Performance Evaluation Percentage

No.	Criteria	Percentage (%)	Total	Percentage (%)
1	Very fulfilling	91 - 100 %	40	91
2	Fulfilled	81 - 90 %	4	9
3	Quite fulfilled	71 - 80 %	0	0
4	Not fulfilled/needs reprimand	<70%	0	0

Based on the table above, the Primary School Teacher Education Study Programme divides the evaluation of lecturer performance in learning into 4 (four) criteria, namely; very fulfilled (91-100%), fulfilled (81-90%), and moderately fulfilled (71-80%), unfulfilled / needs reprimand (>70%).

f. Recommendation

1) For Lecturers
   a) As input related to improving the quality of learning, especially in online learning. Thus, creating effective and efficient online learning.

b) To improve the suitability of the implementation of approaches, models and strategies with learning objectives is done through the preparation of RPS, RTP and RP by a team of lecturers as a guide in carrying out the learning process.
c) Utilise SOPs and other guidelines to improve the quality of learning.

2) For Students
a) Increase participation in online learning courses. This is so that students realise that there is post-semester monitoring.
b) Creatively search for other references as material for material development.
c) Actively consult if you find difficulties in the learning process.

14. Early Childhood Education Teacher Education

a. Lecturer Attendance in Giving Lectures

Lectures for the odd semester of the 2020/2021 academic year will be held from 28 September 2020 to 21 January 2021. Lectures in the Early Childhood Education Teacher Education Study Programme are conducted online using a combination of various platforms, namely zoom meeting cloud, google meet, and e-learning (*simari.ulm.ac.id* portal).

Table 14.1 Lecturer Attendance in Lectures

No.	Course Name	Class	Lecturer/Teaching Team	Number of Lecturer Attendance	Lecturer Attendance Percentage (%)

Based on the data above, the analysis of lecturer attendance in lectures at the Early Childhood Education Teacher Education Study Programme was carried out by dividing the attendance range into three groups, namely: 1) group 1 for lecturer attendance "**very fulfilled**" with 16 meetings, 2) group 2 for lecturer attendance "**fulfilled**" with 14-15 meetings, and 3) group 3 for lecturer attendance "**quite fulfilled**". The following is the range of lecturer attendance analysis.

Table 14.2 Lecturer Attendance Criteria

Group	Criteria	Total	Percentage
1	Highly Fulfilled	66	73,30%
2	Fulfilled	24	26,60%
3	Fulfilled Enough	-	-

The results of the recapitulation of lecturer attendance at lectures in the Early Childhood Education Teacher Education Study Programme show that 73.3% are "**very fulfilled**", 26.6% are "**fulfilled**". Thus, it can be seen that lecturers are active in providing lectures to students using various online learning platforms. However, the GPM Team found findings and recommendations to overcome the problems faced by lecturers in carrying out learning in the Covid-19 Pandemic Era in the Early Childhood Education Teacher Education Study Programme.

Based on the data above, the analysis of student attendance from 36 courses in the Early Childhood Education Teacher Education Study Programme. Analysis

Student attendance in lectures at the Early Childhood Education Teacher Education Study Programme was carried out by dividing the range of student attendance into three groups, namely: 1) group 1 for student attendance "very fulfilled" with 16 meetings, 2) group 2 for student attendance "fulfilled" with 14-15 meetings, and 3) group 3 for student attendance "quite fulfilled". The following is the range of student attendance analysis.

Table 14.4 Student Attendance Criteria

Group	Criteria	Total	Percentage
1	Highly Fulfilled	65	72,20%
2	Fulfilled	25	27,70%
3	Fulfilled Enough	-	-

The results of the recapitulation of student attendance at the Early Childhood Education Teacher Education Study Programme in lectures showed that 73.3% of student attendance was in the "very fulfilled" category, and 26.6% of student attendance was in the "fulfilled" category.

	Total			**1901**	**1516**	**506**	**120**	**4**	**2**	**0**	**0**	**0**	**1**	**30**

Based on the data above, the analysis of student completeness of 36 courses in the Early Childhood Education Teacher Education Study Programme. Analysis of student completeness is carried out by looking at the final assessment of students, and dividing it into several predetermined group criteria. The value categories that apply in the Early Childhood Education Teacher Education Study Program

Early are: A, A-, B+, B, B-, C+, C, C-, D+, D, E. The following is the range of student completeness analysis.

Table 14.6 Percentage of Student Completion

Value	Total	Percentage
A	1901	46,50%
A-	1516	31,15%
B+	506	12,40%
B	120	2,94%
B-	4	0,09%
C+	2	0,04%
C	0	0
C-	0	0
D+	0	0
D	1	0,02%
E	30	0,75%
Total	**4080**	

Based on the table above, the analysis of student learning completeness in the Early Childhood Education Teacher Education Study Programme shows that 46.5% of students are in the "**A**" grade category, 31.15% of students are in the "**A-**" grade category, 12.40% of students are in the "**B+**" grade category, 2.94% of students are in the "**B**" grade category, 0.09% of students are "**B-**", 0.04% of students are in the **C+** grade category, 0.02% of students are in the "**D**" grade category, and as many as 0.75% of students are in the "**E**" grade category.

	Average			**89%**				

Based on the data above, the analysis of the achievement of lecture material from 36 courses in the Early Childhood Education Teacher Education Study Programme. Analysis of student completeness is carried out by dividing the assessment criteria into 3 scale groups, namely: 1) group 1 with a rating scale range (96-100%) with "**very fulfilled**" criteria, 2) group 2 with a rating scale range (90-95%) with "**fulfilled**" criteria, and 3) group 3 with a rating scale range (85-89%) with "**moderately fulfilled**" criteria. The following is the range of analysis of the achievement of student lecture material in the Early Childhood Education Teacher Education Study Programme.

Table 14.8 Achievement of lecture material

Scale	Criteria	Total	Percentage
96-100%	Very fulfilling	16	17,70%
90-95%	Fulfilled	1	1,11%
85-89%	Simply	73	81,10%
Total		**90**	

The results of the analysis of the achievement of lecture materials in the Early Childhood Education Study Program show that as many as 17.7% of the achievements of lecture materials are in the "**very fulfilled**" category, 1.11% of the achievements of lecture materials are in the "**fulfilled**" category, and as many as 81.1% of the achievements of lecture materials are in the "**moderately fulfilled**" category.

Based on the data above, the analysis of lecturer performance evaluation of 36

courses in the Early Childhood Education Teacher Education Study Programme. Evaluation of lecturer performance is carried out using a questionnaire to students on the performance of lecturers in the implementation of learning in the classroom. Evaluation analysis

Lecturer performance is carried out by dividing the assessment criteria into 3 scale groups, namely: 1) group 1 with an assessment scale range (91-100%) with "**very satisfying**" criteria, 2) group 2 with an assessment scale range (81-90%) with "**satisfying**" criteria, and 3) group 3 with an assessment scale range (70-80%) with "**quite satisfied**" criteria. The following is the range of analysis of lecturer performance evaluation in the PGSD Study Programme.

Table 14.10 Percentage of Lecturer Performance Evaluation

Scale	Criteria	Total	Percentage
91-100%	Very satisfactory	42	46,60%
81-90%	Satisfactory	49	54,40%
70-80%	Simply	7	7,00%
Total		**90**	

The results of the analysis of the evaluation of lecturer performance in the Early Childhood Education Study Program show that 46.6%% of students are in the "**very satisfied**" category, 54.4% of students are in the "**satisfactory**" category, and as many as 7.7% of students are in the "**moderately satisfied**" category of lecturer performance in the implementation of learning in the Odd Semester of the 2020/2021 Academic Year.

f. Recommendation

1) For Lecturers
   a. As input related to improving the quality of learning, especially in online learning. Thus, creating effective and efficient online learning.
   b. There is a need for efforts to improve quality and service in the presence of lecturers in lectures, should always be improved.
   c. Providing *rewards* and *punishments* to lecturers based on their attendance should be used as an effort to increase lecturers' motivation in teaching at the Early Childhood Education Teacher Education Study Programme.
   d. The need for improvement in a sustainable and consistent quality assurance culture to achieve the expected quality.

e. Lecturers should use creative methods in learning so that students are more enthusiastic and easy to understand the material presented.

2) For Students

a) Increase participation in online learning courses. This is so that students realise that there is post-semester monitoring.

b) Increase interest in reading to increase knowledge about the material provided.

c) Consult if there is something that is not understood about the material presented.

d) Provide responses and responses in lectures so that the feel of the lecture will be positive with student activeness.

Based on the table above, the number of student attendance occurs in the range of 31.50% -100%. The attendance written 0% is because the course room is not taken by students but programmed by the Guidance and Counselling Study Program. According to the observation of the Quality Assurance Committee of the Guidance and Counselling Study Programme, this is because the SIMARI system has not been fully understood by students in operating their SIMARI accounts.

Based on the data from the table above, the majority of students obtained learning completeness grades from the range of grades A to B-, but a small minority found a small number of students who were considered incomplete in the learning process, namely obtaining grades D + to E.

38	Nina Permata Sari, S.Psi, M.Pd. M Andri Setiawan, M.Pd	Counselling Theories	Counselling Theories				94%

The table above shows that the range of achievement of lecture material is from 19%-100%. The rather small range of courses from the table data is related to student adjustment from offline-based learning to online-based learning, especially by students who retake the course to fulfil the adequacy of lecture grades, so that these retaking students experience difficulties. In addition, students between class A and class B have variations in mastery ability.

19	Utomo, S.Pd., M.Pd.	Inclusive Education	6	18	107	184	1050	93,03%
20	Mirnawati, S.Pd., M.Pd.	Inclusive Education	10	9	71	214	1061	93,81%
21	Drs Sulaiman, M.Pd., Ph.D.	Education Innovation	0	1	33	345	581	91,38%

Based on the table above, the rating scale obtained is in the range of 91.38% to 97.63%. Significantly, the evaluation of lecturer performance shows very high in learning. In the table it is also found that the study programme subjects have a maximum variation in assessment. However, on the other hand, which needs attention from the Quality Assurance Group of the Guidance and Counselling Study Program, the assessment category is not suitable and less suitable in non-departmental courses.

f. Recommendation

Based on the findings, the Quality Assurance Committee of the Guidance and Counselling Study Programme recommends the following.

a. In the learning process, the lecturer team is divided according to the number of classes taught.
b. If the course is only taken by one class, the number of lecture meetings divided into two parts is limited by the implementation of the Mid Semester Examination.
c. All lecturers should remind each other and check
d. A number of lecturers are still adjusting to the use of the SIMARI application, so socialisation is needed.

e. Manual lecturer attendance needs to be planned and scheduled in full in the schedule of dates and hours according to the learning tools
f. Students need to be reminded of the importance of filling in SIMARI attendance before attending lectures.
g. Student learning completeness in lectures needs to be improved more optimally.
h. Students who have little learning completeness need special and intensive attention to be guided.
i. Need to take a different approach in the lecture process according to the level of understanding and mastery of student abilities
j. It is necessary to understand the treatment of students by lecturers outside the study programme so that it is in accordance with the characteristics of the students concerned.

16. Special Education Study Programme

a. Lecturer Attendance in Giving Lectures

Lecturer attendance in semester 1 courses varied from 0% to 100%. The reason for lecturer attendance in introductory education and Christian religious education courses was 0% because there were no students taking the course. Then, other findings were known, the attendance of lecturers in Pancasila courses was 6% and developmental psychology was 13%, this was because the lecturers did not fill in the lecturer's presence on the simari, but they had run online lectures up to 16 meetings. The description of the attendance of lecturers in semester 1 courses is explained in the table

16.1 below.

Table 16.1 Attendance of Lecturers for Semester 1 Courses

Semester 3 Course Lecturer Attendance

Lecturer attendance in semester 3 courses varied from 0% to 100%. The reason for the attendance of lecturers in the education of children with attention barriers and hyperactivity at 0% and 6%, education of children with behavioural and social barriers at 6%, and orientation and mobility at 44% is because the lecturers do not fill in the lecturer's presence on the simari, but they have run online lectures up to 16 meetings. The description of the attendance of lecturers for semester 3 courses is explained in the table on the next page.

Attendance of Lecturers of Semester 5 Courses

Lecturer attendance in semester 3 courses varied from 0% to 100%. The reason for the attendance of lecturers in personal and social development courses at 0% and the development of community awareness at 6% is because the lecturers do not fill in the lecturer's attendance in simari, but they have run online lectures up to 16 meetings. The description of the attendance of lecturers in semester 5 courses is explained in the table below.

Table 16.3 Attendance of Lecturers for Semester 5 Courses

Attendance of Lecturers of Semester 7 Courses

Lecturer attendance in semester 7 courses varied from 13% to 100%. The reason for the 13% attendance of lecturers in the family education course for children with

special needs is because the lecturers do not fill in the lecturer's attendance in simari, but they have run online lectures for up to 16 meetings. The description of the attendance of lecturers in semester 7 courses is described in the table below.

Table 16.4 Attendance of Lecturers of Semester 7 Courses

No.	Course Name	Class	Lecturer/Teaching Team	Number of Lecturer Attendance	Lecturer Attendance Percentage (%)
1	Education Seminar	A01	Amka	16	100%
2	Education Seminar	A02	Amka	16	100%
3	Family Education for Children with Special Needs	A01	Hayatun Thaibah	2	13%
4	Family Education for Children with Special Needs	A02	Hayatun Thaibah	2	13%
5	Community Awareness Development	A01	Amka	16	100%
6	Development Community Awareness	A02	Amka	16	100%

Based on the table above, in the odd semester 2020/2021 there were 33 courses presented with a total of 63 classes. In the Special Education Study Programme, lecturer attendance is divided into 5 categories, namely: very fulfilled (91%-100%), fulfilled (79%-90%), moderately fulfilled (53%-78%), less fulfilled (27%-100%).
52%), and unmet (0%-26%).

Table 16.5 Categories of Lecturer Attendance

Description	Total	Percentage
Highly Fulfilled	41	66 %
Fulfilled	2	3 %
Fulfilled Enough	2	3 %
Less Fulfilled	2	3 %
Not Fulfilled	16	25%
Total	**63**	**100%**

Based on the table and graph above, it can be seen that the attendance of lecturers who fall into the category of very fulfilled is 66%, fulfilled by 3% and moderately fulfilled by 3%, while those in the category of less fulfilled are 3% and not fulfilled reach 25%. Thus it can be concluded that the majority of lecturers have filled in attendance attendance on the lecturer's academic portal and have conducted online lectures as many as 16 meetings. In the aspect of

In terms of lecturer attendance, the Extraordinary Education Study Programme and the Quality Assurance Unit have monitored the filling of attendance on the lecturer's academic portal. However, there are still lecturers who do not fill in attendance on the academic portal.

b. Student Attendance in Lectures Student Attendance Course Semester 1

Student attendance in semester 1 courses varies from 0% to 100%. In the education of children with special needs and developmental psychology courses, the percentage of student attendance was 0% because the lecturers concerned did not fill in the attendance on the lecturer's academic portal so that student attendance was not recorded on the simari. Meanwhile, the introductory education and Christian religious education courses also showed a percentage of 0% because there were no students taking the course. Apart from the four courses mentioned above, student attendance is in the range of 97% - 100%. The description of student attendance in semester 1 courses is explained in the table below.

Table 16.6 Student Attendance for Semester 1 Courses

Student Attendance for Semester 5 Courses

Student attendance in semester 3 courses is in the range of 97% - 100%. With the exception of the development of community awareness in class A02 and assistive technology in class A01 which showed a percentage of 0% because both courses were included in the category of elective courses in semester 5. The description of student attendance in semester 5 courses is described in the table below.

Table 16.8 Student Attendance for Semester 5 Courses

No.	Lecturer/Teaching Team	Course Name	Class	Average Number Student attendance	Percentage of Student Attendance (%)
1	Mirnawati	Behaviour Modification	A02	38	97%
2	Amka	Community Awareness Development	A01	78	100%
3	Hayatun Thaibah	Community Awareness Development	A02	0	0%

		Inclusive Education	A02	38	100%
		Adaptive Physical Education	A01	42	100%

Student Attendance for Semester 7 Courses

Student attendance in semester 7 courses is in the range of 94% - 100%. It can be said that there are no students in this semester who exceed more than 80% absence. The description of the attendance of students in semester 7 courses is explained in the table below.

Table 16.9 Student Attendance of Semester 7 Courses

No.	Lecturer/Teaching Team	Course Name	Class	Average Number Student attendance	Percentage of Student Attendance (%)
1	Amka	Education Seminar	A01	36	100%
		Education Seminar	A02	38	100%
2	Hayatun Thaibah	Family Education for Children with Special Needs	A01	34	94%
		Family Education for Children with Special Needs	A02	36	95%
3	Amka	Community Awareness Development	A01	78	100%
		Community Awareness Development	A02	38	100%

Based on the table above, in the odd semester 2020/2021 there were 33 courses presented with a total of 63 classes. In the Special Education Study Programme, student attendance is divided into 5 categories, namely: very fulfilled (91%-100%), fulfilled (79%-90%), moderately fulfilled (53%-78%), less fulfilled.
(27%-52%), and not met (0%-26%).

Table 16.10 Student Attendance Categories

Description	Total	Percentage
Highly Fulfilled	53	84%
Fulfilled	2	3%
Fulfilled Enough	0	0%
Less Fulfilled	0	0%
Not Fulfilled	8	13%
Total	**63**	**100%**

Based on the table and graph above, it can be seen that the attendance of students who fall into the category of very fulfilled is 84%, fulfilled by 3% and moderately fulfilled by 0%, while those in the category of less fulfilled are 0% and not fulfilled reach 13%. Thus it can be concluded that the majority of students have fulfilled the requirements to meet the final semester exam (UAS) because their attendance is not less than 80%. In the aspect of student attendance, the Special Education Study Programme together with the Quality Assurance Group has monitored the filling of student attendance by lecturers on the academic portal. However, there are still lecturers

who do not fill the attendance on the academic portal.

academic portal so that it has an impact on student attendance. Another finding is that there are students who do not continue the lecture, but the data is still recorded on simari, thus affecting the percentage of attendance in the course.

Based on the table and graph above, it can be seen that the overall student learning completeness reached 99%. The predicate of assessment above the B qualification reached 86%. Thus it can be concluded that the majority of Special Education Study Programme students get a semester Grade Point Average (IP) above 3.00. In the aspect of student learning completeness, the Special Education Study Programme together with the Quality Assurance Cluster conducts monitoring to control assessment input on time.

d. Achievement of lecture material

Achievement of lecture material is considered based on the suitability of material with the Semester Learning Plan (RPS) of the course. The Quality Assurance Group conducts a review related to the suitability of the material based on the results of student evaluations of lecturer teaching on the simari.ulm.ac.id page questionnaire at the end of the semester. The following is a description of the data on the achievement of lecture material.

Table 16.16 Achievement of lecture material

Table 16.17 Categories of Course Content Outcomes

Description	Total	Percentage
Highly Fulfilled	49	78%
Fulfilled	2	3%
Fulfilled Enough	2	3%
Less Fulfilled	2	3%
Not Fulfilled	8	13%

Total	**63**	**100%**

Based on the table and diagram above, the results of the achievement of material in accordance with the RPS are classified based on 5 categories, namely: very fulfilled (91%-100%), fulfilled (79%-90%), moderately fulfilled (53%-78%), less fulfilled (27%-52%), and not fulfilled (0%-26%). The data presentation above, outlines that the lecture material delivered by lecturers is mostly in accordance with the RPS. However, there are still some lecturers who do not include matero

lectures on the system, besides that there are even lecturers who do not achieve lecture material not recorded in the system. This makes it difficult for the Quality Assurance Group to recapitulate, besides that there are also no physical lecture journal documents considering that in the odd semester of the 2020-2021 academic year it is still in the covid 19 pandemic period where lectures are conducted online. These problems occur due to the low awareness of the lecturers concerned to complete the lecture administration, as well as the lack of monitoring carried out by the special education study programme and the Special Education Study Program quality assurance group.

e. Evaluation of Lecturer Performance in Learning

Evaluation of lecturer performance in learning is based on filling out questionnaires by students related to satisfaction in teaching. It is understood that the evaluation of lecturer performance in learning covers 3 (three) aspects: lecturer attendance, delivery of lecture material, and assessment. Based on these three aspects, 15 statement items were formulated. The evaluation of lecturer performance is intended for the assessment of teaching lecturers in the Special Education Study Program in the odd semester of the 2020/2021 academic year The following are the results of the evaluation of lecturer performance in learning:

Table 16.18 Evaluation of Lecturer Performance in Learning

Table 16.19 Categories of Lecturer Performance Evaluation

Description	Total	Percentage
Very Satisfactory	40	73%
Satisfactory	23	37%
Satisfactory	0	0%
Less than Satisfactory	0	0%
Unsatisfactory	0	0%
Total	**63**	**100%**

Based on the table and diagram data above, the questionnaire results are divided into 5 (five) classifications, namely: Very satisfactory (91%-95%), satisfactory (79%-90%), moderately satisfactory (53%-78%), less satisfactory (27%-52%), and unsatisfactory (0%-26%). Performance, in this case the performance of lecturers in learning in the Special Education Study Programme, is generally very satisfactory. This means that more than 50% of students are satisfied with the teaching performance of Special Education lecturers. Meanwhile, the Special Education Study Programme conducts internal monitoring by conducting study programme meetings related to

improving learning performance.

f. Recommendation

1) Lecturer Attendance

a) The GPM team socialises the completion of lecturer attendance at the study programme meeting at the beginning of the semester.

b) The GPM team in collaboration with the study programme operator checks the attendance of lecturers regularly. If it is found that lecturers do not take attendance in simari, they can be reminded and given guidance in doing so.

2) Student Attendance

a) The Study Programme instructed the student to take care of his resignation as a student of the special education study programme at Lambung Mangkurat University.

b) The GPM team socialises the completion of lecturer attendance at the study programme meeting at the beginning of the semester.

c) The GPM team in collaboration with the study programme operator checks the attendance of lecturers regularly. If it is found that lecturers do not take attendance in simari, they can be reminded and given guidance in doing so.

Table 17.2 Findings and Recommendations for Lecturer Attendance

No.	Findings	Recommendation
1	Dr H. Hamsi Mansur, M.M.Pd	a. Scheduled attendance is adjusted to the administrative activities of the study programme coordinator
		b. Teaching hours are sometimes changed
		c. Teaching hours assisted by teaching assistants (*team-teaching*)
2	Dr Agus Salim, S.Ag, M.M.Pd	a. Attend as scheduled
		b. Teaching hours are sometimes changed
		c. Difficulty making attendance lists in Simari assisted by the study programme admin.
3	Wiwik Ariesta, S.Pd, M.Pd	a. Attend scheduled *team-teaching* with senior lecturers
		b. Teaching hours are sometimes changed
		c. UTS and UAS at the end of the lecture
4	Mastur, M.Pd	a. Scheduled attendance adjusted to the administrative activities of the study programme secretary
		b. Teaching hours are sometimes changed
5	Rafiudin, S.Pd, M.Pd	a. Attend scheduled *team-teaching* with senior lecturers
		b. Teaching hours are sometimes changed
6	Agus Hadi Utama, S.Pd, M.Pd	a. Attend scheduled *team-teaching* with senior lecturers
		b. Teaching hours are sometimes changed
7	Adrie Satrio, M.Pd	a. Attend scheduled *team-teaching* with senior lecturers
		b. Teaching hours are sometimes changed for practicum classes
8	Dr Ahmad Sofyan, M.A	a. Attend as scheduled
		b. Teaching hours assisted by teaching assistants (*team-teaching*)
9	Monry Fraick Nicky Gillian Ratumbuysang, M.Pd	a. Attend as scheduled
		b. Teaching hours assisted by teaching assistants (*team-teaching*)

Based on the data table above, the analysis of lecturers' attendance in giving lectures is as follows:

a. Lecturers of the Educational Technology Study Program at FKIP ULM have fulfilled the number of lecturer attendance 16 times, the average lecturer predominantly changes teaching hours from the previously set teaching schedule because lecture activities during the covid-19 global pandemic are flexible and carried out face-to-face (Synchronous) using *zoom/google meet* which has been facilitated by FKIP ULM and online (Asynchronous) using E-Learning SIMARI ULM, Youtube, Kahoot, and WhatsApp Group.

b. The existence of *Team-Teaching of* teaching assistants and senior lecturers in fulfilling the lecturer's attendance schedule for lecture activities both in person and online, so that Lecturers of the Education Technology Study Program at FKIP ULM can meet the number of lecturer attendance of 16 meetings.

c. Some lecturers still have difficulties and or are not *familiar with* filling in the attendance list of lecturers and students in SIMARI, the study programme admin has the obligation to assist and fill in the attendance list of lecturers and students by confirming in advance to the lecturers concerned.

d. One of the lecturers combines UTS and UAS at the end of lecture activities, the recommendation is that it depends on the policy of the lecturer concerned, but it is better if UTS and UAS are scheduled separately.

b. Student Attendance in Lectures

Table 17.3 Student Attendance in Lectures

No.	Lecturer/Teaching Team	Course Name	Class	Average Number of Attendances student	Percentage of Student Attendance (%)

Table 17.4 Student Attendance Findings and Recommendations

No.	Findings	Recommendation
1	Some theoretical courses have been well attended by students, the average attendance is in the percentage range of 92-100%.	a. Students cannot fill in attendance manually during virtual face-to-face lectures (*zoom/google meet*) takes place
		b. Some lecturers do *team-teaching,* some teach and check the attendance list student
		c. Some lecturers are assisted by Admin Prodi to check the student attendance list
2	Some student practicum courses have been well attended the average attendance is in the percentage range 92-100%	a. Students cannot fill in the attendance manual during the virtual face-to-face lecture (*zoom/google meet*).
		b. Some lecturers do *team-teaching,* some teach and check the student attendance list
		c. Some lecturers are assisted by Admin Prodi to check the student attendance list

Based on the data table above, the analysis of student attendance in attending lectures is as follows:

a. Students have fulfilled the number of lecture attendance for 16 meetings, with the percentage of numbers showing 91%-100%, which means that there are no students who are "Ineligible" (TM) / "Repeating (M)". On average, students fulfil the number of lecture attendances by attending live lectures in person (Synchronous) and online (Asynchronous) through manual attendance in E-Learning SIMARI ULM.
b. Some lecturers do *team-teaching*, some are in charge of teaching delivering material and in charge of checking the student attendance list synchronously face-to-face and or asynchronously online through E- Learning SIMARI ULM.
c. Some lecturers are assisted by the Prodi Admin to check and validate the list of student attendance during the virtual face-to-face synchronous lectures.

c. Student Learning Completeness

Table 17.6 Findings and Recommendations for
Student Learning Completeness

No.	Findings	Recommendation
1	Learning Multimedia practicum course there were 9 students who did not pass the lecture by getting grades "D" & "E"	a. Students registered in lectures but not actively participating in lectures from beginning to end meeting
		b. Students do not do practical assignments for reasons that can no longer be tolerated to obtain a sufficient grade of "C". by the lecturer concerned
2	In the practicum course of Television and Video Media there was 1 student who did not pass the lecture by getting "E" grade	a. Students registered in lectures but not actively participating in lectures from the beginning to the end of the meeting
3	There was 1 student who did not pass the learning media script development practicum course. with a grade of "E"	a. Students registered in lectures but not actively participating in lectures from the beginning to the end of the meeting

4	There was 1 student who did not pass the lecture with gets a grade of "E"	a. Students registered in lectures but not actively participating in lectures from the beginning to the end of the meeting
5	In the theory course of Pancasila Education, there were 3 students who did not pass the lecture with a score of "E"	a. Students registered in lectures but not actively participating in lectures from the beginning to the end of the meeting
6	In the Indonesian language theory course, there were 3 students who did not pass the lecture with a grade of "E"	a. Students registered in lectures but not actively participating in lectures from the beginning to the end of the meeting
7	In the Computer Animation practicum course, there were 3 students who did not pass the lecture with a grade of "E"	a. Students registered in lectures but not actively participating in lectures from the beginning to the end of the meeting
8	In the Learning Resources Management theory course, there were 3 students who did not pass the lecture with the following results "E" grade	a. Students registered in lectures but not actively participating in lectures from the beginning to the end of the meeting
9	There were 3 students who did not pass the lecture with gets a grade of "E"	a. Students registered in lectures but not actively participating in lectures from the beginning to the end of the meeting
10	In the Learning Management theory course, there was 1 student who did not pass the lecture with gets a grade of "E"	a. Students registered in lectures but not actively participating in lectures from the beginning to the end of the meeting
11	There were 4 students who did not pass the Computer Based Learning practicum course by getting a grade of "D" & "E".	a. Students enrolled in lectures but not actively participate in lectures from the beginning to the end of the meeting
		b. Students do not do practical assignments for reasons that can no longer be tolerated to obtain a sufficient grade of "C". by the lecturer concerned
12	E-Learning practicum course there were 4 students who did not pass the lecture by getting a grade of "E"	a. Students enrolled in lectures but not actively participate in lectures from the beginning to the end of the meeting
		b. Students do not do practical assignments for reasons that can no longer be tolerated to obtain a sufficient grade of "C". by the lecturer concerned
13	In the Open and Distance Learning theory course there were 2 students who did not pass the lecture with got a grade of "D"	a. The student concerned has attended several lectures but did not attend the UTS and UAS
14	In the Education Evaluation theory course, 1 student received a grade of "C".	a. The student concerned is a repeat student, there are several times attending lectures, the UTS and UAS scores are low

Based on the data table above, the analysis of student learning completeness in lectures is as follows:

a. There are some courses courses that show data completeness student learning outcomes Repeat / M and or get grades "D" & "E" in other words, do not pass the course. The results of observations, interviews, and *focus group discussions* (FGD) of the Quality Assurance Cluster (GPM) of the Educational Technology Study Program with several lecturers and students concerned obtained a statement that:
b. Some of the students concerned have actually been registered in lectures according to the student's Study Plan Card (KRS), but they are not active in attending lectures from the beginning to the end of the meeting, never appear in virtual face-to-face classes (Synchronus), and never do lecturer assignments, UTS, and UAS in E-Learning SIMARI ULM.
c. There are approximately 4 (four) students who are equally registered in lectures but are not actively participating in lectures in each course in the odd semester 2020/2021. So that the value of student learning outcomes in each of these courses gets a grade of "D / E" in other words, they do not pass the course.
d. Students do not do practicum assignments for reasons that cannot be tolerated anymore to get a sufficient grade of "C" by the lecturer concerned. The student concerned has attended several lectures but did not attend the UTS and UAS, so that the student gets a grade (TM) "D". The student concerned is a repeat student, there are several times attending lectures, the UTS and UAS scores are low, so the student gets a grade of "C".

d. Achievement of lecture material

Table 17.7 Monev Achievement of Lecture Materials

Based on the data table, the analysis of the achievement of student lecture material has been delivered 100% in accordance with the lecture topics in the RPS at 16 meetings. Indicators of 100% achievement of lecture material can be seen in the executive account of the coordinator of the educational technology study program and or the admin account of the educational technology study program which shows that the data entries for each of the 16 meetings have been filled with topics of discussion and student attendance.

Based on the data in the table above, the analysis of lecturer performance evaluation in providing an assessment of lecture activities and / or lecturer services to students shows that the level of student satisfaction with the lecturer concerned is on average 71% - 89%. The results of the lecturer performance evaluation questionnaire survey T.A Odd 2020/2021 can be seen in the executive account of the coordinator of the educational technology study program. The conclusion of the questionnaire data above in Likert scale units shows that:

a. On average, lecturers who teach more courses (more than 4 lecturers) get an accumulated predicate of "good" (71%) to "satisfactory" (89%) or almost very satisfactory (90% - 100%). This is an award to the lecturer concerned, because he can provide good lecture activity services to students, even though the lecturer concerned teaches many courses and some hold structural positions (Prodi Coordinator, Secretary, and Prodi Financial Manager) in the FKIP ULM Educational Technology Study Program.
b. The average lecturer who teaches fewer courses (some only teach 1 course) gets a "satisfactory" assessment predicate (≥82%) and this is reasonable, because the lecturer concerned only teaches 1 course and does not hold a structural position in the Educational Technology Study Program, FKIP ULM, so that the lecturer can provide optimal lecture activity services to students.

f. Recommendation

The existence of Team-Teaching of teaching assistants and senior lecturers in fulfilling the lecturer's attendance schedule in lecture activities both in person and online, so that Lecturers of the Education Technology Study Program at FKIP ULM can meet the number of lecturers' attendance of 16 meetings. The achievement of 100% lecture material is followed up by each lecturer teaching the course to always revise the RPS in accordance with the demands of curriculum relevance. Course RPS needs to be modified again, especially in the components of methods, strategies, techniques, and online learning media / resources (E-Learning SIMARI ULM). The revised RPS also needs to insert synchronous and asynchronous online learning models in the student learning experience component (Zoom/Google Meet). Other RPS adjustments for the implementation of the Merdeka belajar-kampus merdeka curriculum with the approach of

Outcome Based Education (OBE) on the assessment rubric component. The study programme admin has the obligation to assist and fill in the attendance list of lecturers and students by confirming in advance to the lecturers concerned.

The follow-up effort for the student concerned is to approach by digging up as much information as possible from peers through the guidance of academic advisory lecturers and or conducting counselling guidance when doing student KRS in the even semester 2020/2021.

18. English Education Study Programme

a. Lecturer Attendance in Giving Lectures

Lecturer attendance at lectures is based on the results of each lecturer's teaching journal at each meeting. During 1 semester, the number of lecturers' attendance is 16 face-to-face meetings including mid-test and final test. Table 18.1 shows the attendance of lecturers in the odd semester of the 2020/2021 academic year.

No.	Course Name	Class	Lecturer/Teaching Team	Number of Lecturer Attendance	Lecturer Attendance Percentage (%)
	Intermediate Grammar	A3		15	94%
	Intermediate Writing	A3		14	88%

Based on the table above, the average attendance of lecturers in the English Education Study Programme at FKIP ULM has met the minimum requirements for the number of face-to-face learning during one semester, namely 16 face-to-face meetings with an average attendance of 91%. However, in the Curriculum and Learning class A4 taught by Mrs Nor Jannah, the attendance was only 25%, so it really did not meet the minimum number of face-to-face meetings.

b. Student Attendance in Lectures

Student attendance at lectures is based on the results of attendance made by students in e-learning simari provided at each meeting. During 1 semester, the number of student attendance is 16 face-to-face meetings including mid-test and final test. Table 18.2 shows student attendance in lectures in the odd semester of the 2020/2021 academic year.

		Intermediate Grammar	A2	95%
		Intermediate Grammar	A3	100%
		Intermediate Writing	A3	93%

Based on the table above, the average attendance of students in the English Education Study Programme at FKIP ULM has met the minimum requirements for the number of face-to-face learning during one semester with an average attendance of

94%. However, there are several classes (Strategy of English Teaching, Instructional Design of English Teaching, Error Analysis, English for Young Learners) where the attendance percentage is below 75%, this is because these classes are filled with old students whose average number is less than 10 people and some of them do not attend lectures.

c. Student Learning Completeness

Student learning completeness in each semester is based on the accumulation of 30% assignment scores, 30% Midterm Examination, and 40% Final Semester Examination. The grades obtained are converted into letters with details of the value categories A - E which can be seen in the following table.

Score	Point	Range
A	4,00	>80
A-	3,75	77 - < 80
B+	3,50	75 - < 77
B	3,00	70 - < 75
B-	2,75	66 - < 70
C+	2,50	61 - < 66
C	2,00	55 - < 61
D+	1,50	50 - < 55
D	1,00	40 - < 50
E	0,	00 - < 40

Student Learning Completeness in the odd semester of the 2020/2021 academic year is shown in Table 18.3

Table 18.3 Student learning completeness

The average learning completeness of students in the English Education Study Programme at FKIP ULM is as follows: of the overall grades, the average A grade is 23.26%, the average A- grade is 19.35%, the average B+ grade is 17.76%, the average B grade is 22.83%, the average B- grade is 6.85%, the average C+ grade is 3.23%, the average C grade is 2.80%, the average D+ grade is 0.92%, the average D grade is 0.77% and the average E grade is 2.22%. With regard to the grade E with an average of 2.22%, there is an attachment to the explanation in the previous section, namely in the example of the course (Strategy of English Teaching, Instructional Design of English Teaching, Error Analysis, and English for Young Learners) there are upper-level students who some of these students do not attend lectures several times. In addition, there were students in, for example, Intermediate Grammar and Intermediate Writing who did not continue their studies or quit, so they did not finish until the end and received an E grade.

d. Achievement of lecture material

The achievement of lecture material in accordance with the syllabus or not is based on the results of the lecturers' teaching journals reported by the lecturers at the end of the semester. This is done with the aim of evaluating the extent to which the achievement of course material is based on the material presented in face-to-face lectures with the syllabus of each course.

Basically, in the English Education study programme at FKIP ULM, the achievement of course materials is very good with an average percentage of material achievement according to the syllabus of 100% for all courses. Students have received materials/competencies according to their respective courses. Although there are few obstacles reported by students, namely the inaccuracy of the teaching schedule of certain lecturers. However, this obstacle can be overcome by scheduling at another meeting.

The achievement of lecture material in the table below shows the percentage of lecture achievement in the odd semester of the 2020/2021 academic year.

		Intermediate Writing	A3		100			
Average				**100**	**98**	**99**	**97**	**100**

Based on the table above, the average material achievement in semester 1 is 100%, in semester 3 is 98%, semester 5 is 99%, semester 7 is 97%, and semester 9 and / or more is 100%. There are several MK materials that have not been achieved perfectly, namely Intermediate Grammar Course Material with teacher Mrs Emma Rosana and MK Text Book Analysis and English for Academic Purposes with teacher Mrs Nor Jannah only reached 80% completion of lecture material for 1 semester. Then, there is Course Material that is not achieved, which is only 50% in the course taught by Mrs Nor Jannah (Curriculum and Learning).

e. Evaluation of Lecturer Performance in Learning

The results of the evaluation of lecturers' performance in each course are obtained from questionnaires distributed to students through each student's academic portal. The questionnaire that must be filled in by students contains criticism and suggestions for teaching lecturers in the English Education Study Program at FKIP ULM in the odd semester of the 2020/2021 academic year. The questionnaire used refers to the questionnaire that has been made by the university.

Table 18.5 Evaluation of Lecturer Performance in Learning

No.	Lecturer/Teaching Team	Class	Total Assessment					Likert Scale (%)
			Not suitable	Not quite right	Suitability	As per	Very suitable	

No.	Lecturer/Teaching Team	Class	Total Assessment					Likert Scale (%)
			Not suitable	Not quite right	Suitability	As per	Very suitable	
1	Prof. Dr H. Abdul Muth'im, M.Pd.	A1	18	66	143	348	730	86.15%
2	Prof. Dr Fatchul Mu'in, M.Hum.	A1	16	11	181	401	1056	89.67%
3	Dr H. Achmad Sofyan, M.A.	A1	3	4	38	120	420	92.48%
4	Dr Cayandrawati Soetiono, M.A.	A1	88	61	257	603	1166	84.81%
5	Dr Nanik Mariani, M.Pd.	A1	12	77	287	681	1163	86.18%
6	Dr Rina Listia, M.Pd.	A1	1	5	58	275	1176	94.59%
7	Dr Jumariati, M.Pd.	A1	0	3	84	424	1094	92.51%
8	Dr Hj Noor Eka Chandra, M.Pd.	A1	2	14	166	386	917	89.66%
9	Novita Triana, M.A.	A1	5	7	78	476	1609	93.81%
10	Elvina Arafah, M.Pd.	A1	123	150	404	622	996	79.33%
11	Emma Rosana F., M.Pd.	A1	3	2	60	302	998	93.56%
12	Nor Janah, M.A.	A1	44	112	228	175	176	68.90%
13	Dini Noor Arini, M.Pd.	A1	3	13	101	239	799	91.48%
14	Nasrullah, M.Pd.B.I.	A1	0	6	142	486	1076	90.78%
15	Raisa Fadilla, M.Pd.	A1	1	6	64	522	1537	93.69%
16	Eka Puteri Elyani, M.Pd.	A1	12	41	288	1103	3176	91.99%
17	Elsa Rosalina, M.Pd.	A1	2	12	68	331	1342	91.99%
18	Yusuf Al Arief, M.Hum.	A1	28	19	223	779	2521	92.19%
19	Fahmi Hidayat, M.Pd.	A1	5	4	141	582	1638	92.44%
20	Rizky Amelia, M.Pd.	A1	3	3	39	443	1957	95.57%

Based on the table above, it can be analysed that based on the Likert Scale, the lowest result for the lecturer performance questionnaire was obtained by Mrs Nor Jannah with a scale of 68.9%, and for the highest result obtained by Mrs Rizky Amelia with a scale of 95.57%. For the option not suitable, the highest number was obtained by Mrs Elvina Arapah and the lowest was 0 which was obtained by Mrs Jumariati and Mr Nasrullah. For the option less suitable, the highest value was obtained by Mrs Elvina Arapah at 150 and the lowest value by Mrs Emma Rosana at 2. For the moderately suitable option, the highest score was obtained by Mrs Elvina Arafah at 150 and the lowest score was obtained by Rizky Amelia at 39. For the suitable option, the highest score was obtained by Eka Elyani at 1103 and the lowest score was obtained by Norjanah at 175. For the option very suitable, the highest score was obtained by Mrs Eka Puteri Elyani at 3176 and the lowest score was obtained by Mrs Nor Jannah at 176.

f. Recommendation

1. Lecturers are asked to always maintain and improve good performance through attendance at each meeting, achievement of lecture delivery, and good teaching and learning processes.
2. Lecturers should be more committed to fulfilling lecture contracts so that the lecture process can run orderly, smoothly, and in accordance with the RPS and lecture contracts.
3. Students who take courses, both new courses and especially *re-course* or *re-take are* expected to always attend every meeting.
4. It is hoped that the cooperation of students to actively participate in filling out the lecturer performance quotient so that the monitoring and evaluation process can run smoothly.

		A2	FARADINA, M.Pd.	16	100%
31	Listening Basics and Skills	A1	Dr SABHAN, M.Pd.	15	94%
		A2	FARADINA, M.Pd.	15	94%

The results of the analysis of the attendance of PS-PBSI lecturers from 16 planned lecture meetings reached an average of 96% which can be said to be good. The recapitulation of this attendance is 16 meetings including UTS and UAS. This indicator is also supported by data outside this recapitulation, namely the "SIMARI satisfaction questionnaire" data that the percentage (%) of lecturer attendance is in the range of 90% so that overall that the lecturer's life in lectures is in accordance with the standard.

b. Student Attendance

Table 19.2 Student Attendance in Lectures

No.	Lecturer/Teaching Team	Course Name	Class	Percentage of Student Attendance (%)

	FARADINA, M.Pd.		A2	100%

The next indicator is student attendance in lectures where the average data recapitulation is below 99% in the various MKs that are followed. This means that the students of PS-PBSI FKIP ULM are very obedient and obedient in following the lecture process during one semester. Their presence (students) in lectures is one of the main components in supporting the quality and quality of management of PS-PBSI FKIP ULM.

MUHAMMAD ELMY, S.Pd., M.Pd.	33	68	263	397	529	80,48
DEWI ALFIANTI, M.Pd.	46	60	435	1408	2101	86,95
Dr NOOR CAHAYA, M.Pd.	12	39	216	671	1462	89,44
Dr SULISTIYANA	11	21	137	344	537	86,19
NASRULLAH, S.Pd., M.Pd.B.I.	7	10	144	405	739	88,49
AHSANI TAQWIEM, M.Pd.	49	59	399	1231	1787	86,37
LITA LUTHFIYANTI, M.Pd.	35	114	516	1400	2150	86,17
FARADINA, M.Pd.	59	71	411	1454	2880	88,82

In general, there was no performance that reached the 90% mark.

f. Recommendation

Based on the results of monitoring and evaluation of the odd semester of the 2020/2021 academic year, the Indonesian Language and Literature Education Study Programme, Faculty of Teacher Training and Education, Lambung Mangkurat University, recommends:

a. For lecturers to continue to improve services to students including conducting self-evaluation in order to maintain / improve the quality of learning that is taught.
b. For study programme administrators to increase internal activities that can support the improvement of the quality of learning in PS-PBSI.
c. For students to increase their involvement in lectures even though they are online. M&E activities in this aspect of learning are also information for students that there is monitoring of the learning process even though it is carried out during a pandemic.
d. Provide information on the results of monev so that each lecturer knows the assessment he gets both from the questionnaire and attendance calculation.
e. Delivered an appeal during an internal study programme meeting so that each lecturer could maximise attendance according to the agreed standard of 16 meetings.
f. Inform the results of the monitoring and evaluation to lecturers so that they can follow up on student attendance in future lectures.
g. Present the results of monitoring and evaluation during internal meetings so that they can be the basis for making policies that can increase student attendance.
h. Provided information regarding the use of the online attendance register provided by simari.
i. Inform the lecturers and students of the results of the movel so that in the future it can be a reference in attending lectures.
j. Continue to provide encouragement and guidance during meetings both between lecturers and those involving students to pay more attention to lectures.
k. Remind PA lecturers to conduct more intensive guidance to students who need help.
l. Communicate the results of monev to all lecturers

m. Tracking during internal meetings to the lecturers concerned about obstacles in the lecture.
n. Communicate the results of monev to all lecturers.
o. Encourage all teaching staff to improve services so that their performance can be maximised in future lectures.
p. Organise internal training related to the learning process and making tools in order to maximise services to students.

20. Performing Arts Education Study Programme

a. Lecturer Attendance in Giving Lectures

Implementation of lectures for the odd semester 2020/2021 in the midst of the covid- pandemic 19. The implementation of lectures by lecturers in the Drama, Dance and Music Education Study Programme at FKIP ULM varies. The media used by lecturers; 1). *E-learning*, 2). *GoogleClassrom*, 3). *Zoom Meeting*, 4). *Google Meeting*. 5). *WhatsApp Group*.

Table 20.1 lecturer attendance in giving lectures

No.	Course Name	Class	Lecturer/Teaching Team	Number of Lecturer Attendance	Lecturer Attendance Percentage (%)

Table 2.1 presents 74 courses for the odd semester 2020/2021 in the Department of Drama, Dance and Music Education FKIP ULM Banjarmasin. The implementation of lectures in the FKIP ULM Drama, Dance and Music Education Study Programme reached 94% of lecturers attending lectures 16 meetings, and 6% of lecturers 14-15 meetings. It can be concluded that the lecturers' attendance was fulfilled 16 times with a percentage of 100%.

b. Student Attendance in Lectures

Student attendance in the implementation of lectures during one semester can be seen in the description in table 2.5 below.

Table 20.2 Student attendance at lectures

No.	Lecturer/Teaching Team	Course Name	Class	Average number of student attendance	Percentage of Student Attendance (%)
1	TUTUNG NURDIYANA, S.SOS., M.A., M.PD	Basic Archipelago Dance	A1	14	93%

c. Student Learning Completeness

Student learning completeness is based on the assessment indicators received by students. The assessment is carried out based on the assessment of individual and group assignments (30%), Mid Semester Examination (30%), and Final Semester Examination (40%). As stated in the first point, 134 courses are presented. There are no courses that contain a general assessment due to late input. The following is a description of student learning completions with assessment indicators:

Table 20.3 Student learning completeness

No.	Lecturer/Teaching Team	Course Name	Class	Number of students who scored											
				A	A-	B+	B	B-	C+	C	C-	D+	D	E	Number
1	TUTUNG NURDIYANA, S.Sos., M.A., M.Pd.	Basic Archipelago Dance	A1	4	0	11	0	0	0	0	0	0	0	0	15

	SUMASNO HADI, S.Pd., M.Phil.,															
	TUTUNG NURDIYANA, S.Sos., M.A., M.Pd.															

Based on the data above, it can be seen that the overall student learning completeness reached a percentage of 94%. The predicate of assessment above the qualification of B and above as a percentage reached 91%. Thus, it can be concluded that the majority of students of the Performing Arts Education Study Programme get a semester Grade Point Average (IP) above 3.00.

In the aspect of student learning completeness, the Performing Arts Education Study Programme together with the Quality Assurance Cluster conducts scheduled monitoring to control the timely assessment input. Student learning completeness indirectly affects student graduation on time (around 7 to 9 semesters) in one period.

d. Achievement of lecture material

The achievement of lecture material is considered based on the suitability of the material with the Semester Learning Plan (RPS) of the course. The curriculum documents in the Performing Arts Education Study Programme are complete (both MKU, MKDK, MKPP, and MKKPP groups). The Quality Assurance Group conducts a review related to the suitability of the material based on the results of student evaluations of lecturer teaching on the simari.ulm.ac.id page questionnaire at the end of the semester. The following is a description of the data on the achievement of lecture material:

Table 20.4 Achievement of lecture material

No.	Lecturer/Teaching Team	Course Name	Class	Percentage of Achievement as per RPS			
			A1 & A2	SMT 1	SMT 3	SMT 5	SMT 7
1	Tutung Nurdiyana	Culture of the Banjar People	A1 & A2		100%		
		Sociology and Anthropology of Art	A1 & A2			100%	
		Ethnopadagogy	A1 & A2			100%	
		Ethnochoreology	A1		100%		
		Basic Natural Science	A1 & A2	100%			
		Introduction to Wetland Environment	A1 & A2	100%			
2	Maryanto	PIIP I	A2		85%		
		PIIP III	A2			85%	
		Music Theory	A1 & A2	100%			
		Choir	A2		85%		
3	Edlin Yanuar Nugraheni	Introduction to Dance Knowledge	A1 & A2	100%			
		Dance Composition	A1			85%	
		Motion and Character Analysis	A1			100%	
		Basic Makeup and Fashion	A1		100%		
4	Benny Mahendra	Learner Development	A1 & A2	98%			
		Wind and String Class	A2		85%		
		Guitar Class	A2		83%		
5	M. Budi Zakia Sani	Banjar Music I	A2			85%	
		Panting Music	A2		85%		
6	Sumasno Hadi	Curriculum and Textbook Development	A1 & A2			85%	
		Manual Harmony	A2			85%	
		Research Methodology	A2			100%	
		Art Appreciation and Criticism	A1 & A2				100%

7	Sulisno	Art Performance	A1 & A2				90%
		Drama	A1 & A2	95%			
		Theatre of Education	A1 & A2			95%	

No.	Lecturer/Teaching Team	Course Name	Class	Percentage of Achievement as per RPS			
			A1 & A2	SMT 1	SMT 3	SMT 5	SMT 7
8	Novyandi Saputra	Stage Design	A1 & A2			87%	

Based on the table and diagram above, the results of the achievement of the material in accordance with the RPS are classified based on 3 categories, namely: very fulfilled (96-100%), fulfilled (90-95%), and sufficient (85-89%). The data presentation above, describes that the lecture material delivered by the lecturer 48% is very fulfilled, 11% fulfilled, 41% sufficient. The impact of the Covid 19 pandemic has caused a high percentage of sufficient on material achievement, this is due to the difficulty of fulfilling practical teaching materials online, so that not all material can be taught optimally online.

e. Evaluation of Lecturer Performance in Learning

The evaluation of lecturers' performance in learning in Academic Year 2020/2021 odd semester is taken from filling out a questionnaire from students via simari@ulm.ac.id which is described in the table below.

Table 20. 5 Evaluation of lecturer performance

No.	Lecturer/Teaching Team	Class	Total Assessment					Likert Scale (%)
			Strongly Disagree	Disagree	Moderately Agree	Agree	Strongly Agree	
1	Dr TUTUNG NURDIYANA, S.Sos., M.A., M.Pd.	A1 & A2	10	20	30	80	140	86,89%
2	MUHAMMAD BUDI ZAKIA SANI, M.Pd	A1 & A2	15	20	30	75	120	84,51%
3	MUHAMMAD NAJAMUDIN, M.Pd	A1 & A2	10	20	20	80	140	86,01%
4	Dr Dra. Hj FATIMAH, M.Hum	A1 & A2	15	20	30	80	110	81,04%
5	BENNY MAHENDRA, M.Pd	A1 & A2	15	20	30	80	120	82,70%
6	MARYANTO, S.Sn., M.Sn	A1 & A2	15	20	30	80	140	86,38%
7	Dr ARIF SHOLAHUDDIN, S.Pd., M.Si	A1 & A2	15	20	30	80	110	80,76%
8	EDLIN YANUAR NUGRAHENI, S.Sn., M.Sn	A1 & A2	10	20	30	80	120	84,84%
9	NOVYANDI SAPUTRA, S.Pd, M.Sn	A1 & A2	15	20	30	80	100	82,97%
10	PUTRI YUNITA PERMATA KUMALA SARI, M.Pd	A1 & A2	15	20	30	80	120	83,65%
11	SULISNO, S.Sn, M.A	A1 & A2	10	20	30	80	140	86,38%

12	SUMASNO HADI, S.Pd., M.Phil	A1 & A2	15	20	30	80	120	84,06%
13	Dr MUHAMMAD SALEH, M.Pd	A1 & A2	15	20	30	80	110	89,83%
14	AHSANI TAQWIEM, S.Pd., M.Pd.	A1 & A2	10	20	30	80	150	92,02%
15	DEWI RATIH RAPISA, S.Pd., M.Pd.	A1 & A2	20	25	30	70	90	74,63%

No.	Lecturer/Teaching Team	Class	Total Assessment					Likert Scale (%)
			Very Disagree	Disagree	Moderately Agree	Agree	Strongly Agree	
16	SARAH MIRIAM, S.Pd., M.Sc., M.Pd.	A1 & A2	20	25	30	70	90	73,21%
17	Dr NOOR EKA CHANDRA, S.Pd., M.Pd.	A1 & A2	15	20	30	80	120	84,61%

It can be seen in the table above that student satisfaction with learning in the FKIP ULM Drama, Dance and Music Education Study Programme is well achieved. This means that the learning system in the midst of a pandemic is running according to the plan of the lecturer in charge of the course. The performance of 17 lecturers in the Dramatic Arts, Dance and Music Education Study Programme of FKIP ULM in the odd semester 2020/2021 shows good performance and works optimally to achieve complete learning.

f. Recommendation

Recommendations for the Odd Semester Evaluation activities for the 2020/2021 Academic Year. Based on the conclusions of the M&E results above, the following recommendations for improvement are given.

a. There is still a lack of teaching staff in the Drama, Dance and Music Education Study Programme.
b. There is a need for training in technology-based teaching.
c. Need to procure practical tools that students can take home.
d. Conduct socialisation and monitoring at the study programme level
e. Conduct training for lecturers who have not been able to utilise e-learning.
f. Attendance can be assisted by the study programme operator.
g. Students do not fill in attendance attendance manually.
h. Attendance is administered by the study programme operator.
i. Monitoring the thesis supervision process.
j. Monitoring students in their final project.
k. Undertake e-learning training efforts.
l. Conduct technology-based learning innovation training activities.

21. Physical Education, Health and Recreation Study Programme

a. Lecturer Attendance in Giving Lectures

Lectures in the odd semester 2020/2021 are generally conducted using the online method (online) using several recommended applications including *Zoom Meeting* and *Google Meet* for *teleconferences* as a substitute for face-to-face *meetings*. For data collection of lecturer attendance in giving lectures can be obtained through the portal from Simari ULM which will be described below.

Table 21.1 Lecturer Attendance

No.	Course Name	Class	Lecturer/Teaching Team	Number of Lecturer Attendance	Lecturer Attendance Percentage (%)
1	Human Anatomy	A1 2020	Drs H. Athar, M. Kes	8	100

The attendance of lecturers in each class out of a total of 123 classes of courses, the completeness of attendance is 98%. This shows that lecturer attendance in the odd semester 2020/2021 has been well fulfilled.

b. Student Attendance in Lectures

One aspect that is determined as one of the requirements for taking the Final Semester Examination (UAS) in a course is the attendance rate of each student in lectures at least meeting the target of 80% or at least 12 meetings. Since lectures in the odd semester 2020/2021 are conducted using the online method, student attendance is also carried out using the online method using several applications, namely through *e-learning* from Simari ULM, and also through *Google Form*. A recapitulation of the

average and percentage of student attendance will be described in full in the table and diagram below.

Table 21.2 Student Attendance in Lectures

No.	Course Name	Class	Lecturer/Teaching Team	Average student attendance in class	Percentage of Student Attendance (%)

The explanation in the table above that the attendance of students in all classes totalling 123 classes of courses, the completeness of attendance is moderately fulfilled with a scale (62.5 -75) of 2.4%, attendance is fulfilled with a scale (76 -87.5) of 1.6%, while very fulfilled with a scale (87.6 - 100) of 95.9%.

c. Student Learning Completeness

Student learning completeness is made based on assessment indicators assessed by lecturers for students. The assessment is made based on the assessment of individual and group assignments (30%), Mid Semester Examination (30%), and Final Semester

Examination (40%). There are no courses that contain a general assessment due to late input. The following is a description of student learning completeness with qualification of assessment results.

Table 21.3 Student learning completeness

No.	Lecturer /Teaching Team	Course Name	Class	Number of students who scored:											Percentage %

Based on the data on the acquisition of grades, it can be seen that the overall completeness of student learning in the odd semester 2020-2021 reached a pass rate of 96.01%. The predicate of assessment above the B qualification percentage reached 66.29%. There are still students who have not achieved a passing grade of 3.97%, and 3.22% of these grades with qualification E. In the aspect of student learning completeness, the Physical Education Education Study Program together with the Quality Assurance Cluster conduct scheduled monitoring to control assessment input on time.

d. Achievement of lecture material

The benchmark in achieving lecture material is seen from the suitability of the material topics provided with what the lecturer has prepared in the Semester Learning Plan (RPS) for each course. The following is a description of the data on the achievement of lecture material in the odd semester 2020/2021.

Table 21.4 Achievement of lecture material

No.	Lecturer/Teaching Team	Course Name	Class	Topic	Achievement	Percentage %

Based on the table above, the results of the achievement of lecture material in accordance with the RPS in the odd semester of 2020/2021 are described in percentage terms that the achievement of lecture material is fulfilled 95% in accordance with the RPS, while 5% is not fulfilled in accordance with the RPS. The data presentation above, describes that the lecture material delivered by the lecturer is in accordance with the RPS. However, the Quality Assurance Group of the Physical Education Study Program continues to monitor the update of lecture materials. This matter is intended so that the material provided to students is in accordance with the needs. The high interest of students in lectures requires lecturers to provide material that is not only in accordance with the RPS but also relevant to the times. Therefore, in

In addition to learning completeness based on assessment, the Physical Education Study Programme GPM urges lecturers to submit lecture material in e-learning on the simari.ulm.ac.id page.

e. Evaluation of Lecturer Performance in Learning

Lecturer performance evaluation data in learning is obtained from a questionnaire recapitulation conducted by students related to satisfaction and divided into 15 statement items. The results of the lecturer's assessment taken in the simari application with a questionnaire filled out by students, in the assessment using a Likert scale processedntase with 3 categories, namely quite appropriate with the range (82.57 - 86.43), appropriate (86.44 - 90.30) and very appropriate (90.31 - 94.17), while the lecturers assessed were 28 people. The results of the questionnaire show that the performance of lecturers in the Physical Education study programme is in a fairly suitable category of 5 people with a percentage of 18%, in the appropriate category there are 14 people with a percentage of 50%, while in the very suitable category there are 9 people with a percentage of 32%.

f. Recommendation

a. If there are lecturers who are unable to attend, please communicate with the course team so that there are no lulls.
b. In conducting lectures, especially with online lectures, students should prepare sufficient internet quota, be on a strong signal and attendance must be in accordance with lecture hours (not late for lectures).
c. For students who get E grades, it is necessary to further explore the obstacles or obstacles faced so that the problems of the students concerned can be identified.
d. In achieving lecture material, lecturers should update according to its development, in addition, lecturers should provide lectures with the latest studies.
e. Implement what is in accordance with the RPS, not monotonous in conducting learning, using e-learning and others.
f. Use online lectures by providing lecture material even if you do not attend face-to-face.
g. Student readiness during lectures to find a good internet signal.

h. It is necessary to explore the issue further, whether there are other problems besides poor attendance.
i. Socialising the use of e-learning.
j. Workshop on improving learning materials.
k. The need to update the material to keep up with the times
l. It is better if the students' UTS or UAS results are returned to the students and the correct answers are given.
m. Regular elarning training for lecturers.

CHAPTER III

CLOSING

1. Summary

a. There are still lecturers who attend less than 16 meetings in the learning process, namely Economics Education, Sociology Education, Social Studies Education, Mathematics Education, Biology Education, Chemistry Education, Physics Education, Science Education, Computer Science Education, PGSD, PGPAUD, Counselling Guidance, Special Education, English Education, and Indonesian Language and Literature Education.

b. The average attendance of students in the learning process in the Study Programmes at FKIP Lambung Mangkurat University has mostly met the criteria. However, in the study programmes of Mathematics Education, Physics Education, Computer Science Education, Extraordinary Education, English Education, and PJKR, the number of student attendance is still below 80% (not met).

c. There are still a small number of students who are participants in courses that are not completed / passed. This was found in all study programmes in several courses.

d. The suitability of the material with the syllabus in nine study programmes within FKIP has reached 100%, six other study programmes still found the level of suitability of the material between 80% and 93%, and six other study programmes (Sociology Education, Physics Education, Computer Science Education, Counselling Guidance, Special Education, and English) still found the level of suitability below 80%, which means that the level of suitability of the material with the syllabus is still low in several courses.

e. The evaluation results show that most students are satisfied with the lecturers' performance. This can be seen from the results of the assessment of lecturer performance, most of which are above 80%. However, there are still some lecturers in six study programmes that score below 80%, namely Economics Education, Physics Education, Computer Science Education, Early Childhood Education, Educational Technology, and Performing Arts Education.

2. General Recommendation

Based on the results of the monitoring and evaluation of learning in the odd semester of 2020/2021, the following recommendations can be made.

a. Socialisation to lecturers and students about filling in attendance on the SIMARI ULM academic portal.
b. Socialisation to lecturers to maximise the use of learning through *e-learning* SIMARI ULM.
c. Lecturers are asked to always maintain and improve performance in learning, pay attention to the attendance rate of lecturers and students, as well as the achievement of material and student completeness.
d. If the lecture meeting is less due to adjusting the effective week, it should replace the missing meeting to fulfil the number of meetings according to the RPS.
e. It is necessary to further explore the obstacles or obstacles faced by students who do not pass a course, so that input and suggestions can be given to solve the problems of the students concerned.
